WINDY

MOVING PICTURES

Were Taken When the Al Buil They Would Look Absolutely Dead.

"What I makes the wind blow so much in the moving pictures?" The question is haked by almost every one who has been bitten by the bug of the moving picture show. It is a fact that in every scene where there's half a chance of giving up a breez it blows a tornado, or at least a kink's gale disports itself in the trees in the back ground and the skirts of the harassed heroine in the cront.

A moving picture man solved the problem.

problem.
"That's easy," he replied in answer to a query. "If the pletures were tak-en when the air was perfectly stfl, then if the living characters happened to be still also the picture would be as dead looking as a 35-cent chrome of as dead looking as a 35-cent chromo of Twillght.] So a time is selected for photographing the acease outside when the kinds is playing old hob with things generally, trees swaying and kirts futtering and had fighten and the strength of the sweet should be succeeded to the control of the streaming behind her like the burgee on a racing yactit. Then, too, when everything's busy moving it looks like there's something doing all around.

How to Correct.

The doptor who tred to thow all he patients into the work as the only thing he knew how to cure has his counterpart in the young Sunday-school teacher who was transferred to the Chinese quarter from an Irish neighborhood where nighting was about the only original sin she had been halled upon to rebute. All the formulas warranged to siar he high microbes were known to her but since Chinese boys have yet to learn that first were under to fight with her laid, the was positive, was recking with the counterpart of the chinese chinese. The warrety had the trampian Irish-American variety she had been used to. At least she managed to stir up a real fight the wear two Chinese youthe, but before much dainings had been done the mission-duperheardent therfered and re tokked, but for allowing so much bad blood to lome to a head. "I she sidd, helplassly." I just had to let them fight. They all needed to be scoleded for something, and that is the only king I knew how to our set them for."
