Jo Grace of Detroit will soon move on the Shaw farm.

Trees of Liberty.

The last of the Trees of Liberty, several of which were planted in Pontiac to commemorate the revolution of 1776, is no more. The little tree, planted with much ceremony, flourished and became one of the tallest in Pontiac. Of later years the Tree of Liberty was only a tree of liberty in name for it was really a prize tree surrounded by houses, and these years have increased in height, making the struggle of the tree the harder and death has been the conqueror. The roots, however, spread and became a danger to a house of old stories, so in its attempt to rival the house in height the tree was vanquished and has fallen to the use of the tree feller.

Longevous Geese.

Geese will live to a great age, and some few years ago I came across a very venerable goose (male or female) I cannot now say in Westmoreland. Unexpected circumstances, I was visiting from Miltthorpe to Arnscliffe at Ganside found an acquaintance stilling on a seashore bent feeding a pet goose with biscuits assigned to me. He told me that this geese had been in his family for over forty years and was partial to beer, stout and even gin. One of the most remarkable records of the longevity of geese with which I am acquainted is to be found in an old book entitled "Travels in Scotland," by the Rev. James Hall, M. A. London, two volumes, 1807. On a visit to a Mr. Charles Grant, of Edinburgh, Strathclyde, the author was informed of a geese that had been killed by accident after being at the same place for "nearly one hundred years."—G. W. M. in the Post.

Children and Money.

My father was a minister with six children. As a matter in the Christian Church, my father was ready to endow his children with his brothers before they had reached the college. Now, I have a son of my own, I am thinking of the thoughtful training which we six children had. We each had a small allowance, and at the close of the year, if in our household we could show a balance in our favor, the amount of money we had saved was doubled and placed for our account in the savings bank. We then became the proud possessors of a bank book. The habit of saving, with wise supervision to prevent misdeeds, makes all the difference between plenty and want in later years.

The Bill of Rights.

The Bill of Rights in English history is the declaration made by the Lords and Commons to the Prince and Princess of Orange on February 12, 1689, in an act setting forth the rights and liberties of the subject, and settling the succession of the crown. This bill is virtually the beginning of the government in England. Nevertheless it passed the parliament as a British king dared to interfere with the fundamental rights of the British people. The Bill of Rights, is not original—the most of its principles being a repetition of those laid down in Magna Charta—is justly looked upon as the foundation of English freedom.

A Taste of It.

Noted Anarchist (explaining his belief to fellow passengers on western railway train)—Ve want all laws banished from the statute books. Ve want every citizen to do as he please. Leader of Western Outlaws (sudden boarding the train)—Hold up your hands!
