## *Ohen* a Man Marries

MARY ROBERTS RINEHART

SYNOPSIS.

n or Jimmy as

and planned. Illing Jap. servant is taken the bear and any a Krevet with the property of the p

that if didd. Any anything about core ting, and is just an useless as all the others. He came the helt the bowl out to me ind waved a fort in triumph.

'I have solved it he said. 'Or, rather, Flaunigan and I have solved it. The mixture awaits the magic touch of the ghok.''

'I honeastly flought I could do the rej. It was a ly to be put in a pain an, browned, 'ad then in the oven the mixture awaits and I did it properly, but for two things: I should have greased the pain that the way and 'I should have greased the pain that the way and 'I should have lighted the oven. The latter, however, was Mr. Harblson's fault as much as mind, and I had wit enough to lay it to absent inindedness on 'he part of both of us.

there.

Nothing happened on the trip. One of the engines broke down three days out, and I spont all my time below decks for 48 hours. Chief engineer raving with D. Ts. Got the engine fixed in record time, and haven't got my bands clean yet. It was bully. With this I send the papers, which will tell you how I happen to be here,

She is a Thoroughbred.

and why I have lefsure to write you three day's after landing. If the situation were not so ridiculous, it would be maddening. Here I am, off for a holiday find congratulating myself that I am foot free and hoper free-yes, my friend, heart free-here I am, shut in the house of a man I never saw multi-last night, and wouldn't care II I never saw gian, with a lot of people who never heard of me, who are almost equally vague about South America, who play as hard at bridge as I ever worked at building one (forgite this, won't you'? the novelty has gone to my head), and who belong to the very class of extravagant, luxury-loving, ifthor-producing parasites (Isn't that what we called them?) that you and I used to revile from our lofty Andean primacle.

To come down to careth: Here we

body for two timpses: I should nave transported the past (but this was the book's fault; it didn't say) and I got the past (but this was the book's fault; it tidn't say) and I got to reviel from our fault as mochlas mine, and I had wit enough to lay it to absent inindedness on the part of both of two the said the say of the properties of the part of both of two the said the say of the properties of the part of both of two the said the said

From Maxwell Leed to Richard Bur-ton Bagley, University club, New York.

Dear Dick: Dear Dick:
Incloied and my check for five hundred, as per wager. Possibly you were within your right in protecting your bet in the manner you chose, but while I do not wish to be offensive, your reporters are damnably so.

MANWELL REEL.

They Do Things Better in France.
It is no easy matter to be married
in France, says F. Berkeley Smith,
in Success sizgazine. One great
thing in favor of so sacred a cere
mony is that it cannot be hastily per-

## DUCK RAISING UNDOUBTEDLY MOST PROFITABLE INDUSTRY

Close Study of the Business and Careful Attention to Even the Smallest Details Are Necessary if One Would be Successful.

(By GEORGE E. HOWARD.)

Only OLONGE E. HOWARD.

Duck raising has been developed within the last twenty-five years into a flourishing industry. Prior to that the other duck what not considered a flourishing industry. Prior to that the other duck what not considered a flourishing industry. Prior to that the other duck what not considered a flourishing the flow of th

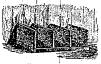

Two-Pen House for Growing Ducks

two-fee Hoise for Growing Ducka, ducks are raised that have no waters are that which is given them as drink.

It has been a matter of much dispute which is the better way. Some duck raisers he water and allow their breeders the freedom of it; some allow their sowing stock intended for market free access to water until they may be the store of the some part of the freedom in the state of the some part of the freedom is not stated beyond dubth that good have the water on their farms, excepting wells, who are just as successful and raise as many birds as those who have the water. The only noticeable

difference between upland and water ducks is that the latter are of pret-tier and cleaner plumage than the former.

dicke is that the latter are of pretiter and cleaner plumage than the former. The state the latter are of pretiter and cleaner plumage than the former. I have a support the state of the s

and keep her generally in good health.

The duck raisers on Long Island use large quantities of fish for their

use large quantities of fish for their breeding stock.

This is known as the "fish diet," and is considered as being very valuation of the considered as the considered as the considered with the considered values of the

Gather Eggs Often.
Gather the eggs often, this assures fresh eggs, has a tendency to keep hens from broodness. If they are allowed to remain in the nests until six to ten have accumulated the hens soll them more. It is better to gather eggs they or here there they are the contract the contract the contract they are the contract the contract they are the contract the contract the contract they are the contract the cont eggs two or three times a day year around.

Good Poultry Mash.
For the general poultry keeper, a
wash, fed wet or dry, composed of
equal parts of ground eats, wheat
bran, corn meal and beef scraps, for
the morning meal, with corn, cracked
or whole, for the evening meal, will
give excellent results

## YOURS

Yours for great-est leavening Yours for never Yours for purity. Yours for economy. Yours for everything that goes to make up a strictly high grade, everdependable baking powder.

powder.
That is Calumet. Try
it once and note the improvincent in your baking. See how much more
economical over the highpriced trust brands, how
much better than the cheap
and big-can kinds.

Calumet is highest in quality Receiv'd Highest Award-World's Pure Food Exposition.

FAMILY PRIDE.

First-ring
Prof. Stork—And how are we getting on with our studies. Ernestine?
Have you been promoted to the first
glace says [2].
Little Miss Quacker—Oh, no, professor. Nother has decided what I shall not take that course. She says
anybody can fly—but only the best
familles take to water naturally.

## WOULD LIE AWAKE ALL NIGHT WITH ITCHING ECZEMA

"Ever since I can remember I was

WITH ITCHING ECZEMA

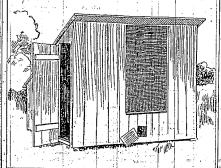

"Ever since I can remember I was a terrible sufferer of eczema and other firitating skin diseases. I would lie awske all night, and my suffering was in the learned of my back, and being but a child, in naturally scratched it. It was a turning, itching sensation, and utterly intolerable, in fact, it was so that I / buid not possibly forget about it. It bild not take long hefore it spread to my shoulders and arms, and I was almost covered with a mass of it. I was all not so should be sufficiently and it is to be the solution that my hands were tied. "A number of physicians were called, but, it seemed beyond their medical power and knowledge to cure me. Having tirea numerous treatments without deriving any benefit from them, I had given myself up to the mercy of my dreadful mahey, but I thought I would take the Culcura Intendment, as a last recort. Words channot (Express, my gratitude to the one who, created "The Culcura Miracles, as'I have named them, for now I [cel as if I never suffered from even and pipule. My disease was routed by Culcura Soos and Othnemal and I shall never ecase praising the wonderful melly they contain. I will never will gird other sufferers an idea of bow I suffored, and also hope that they will not pass the Culcura Ernedles in the I kno. I hope that this letter will gird other sufferers an idea of bow I suffored, and also hope that they will not pass the Culcura Ifference, 29 Oceaning St., Philadelphia, Fa., Ads. 29, 1910.

The Discoverer, Of fault, asceler he would be. CLOTH WINDOW FOR CHICKENS
