The more populous counties of
Michigan in the local option fight
in 18 counties Tuesday showed
decisive victory for the wet forces.

While the anti-saloon forces suc-
ceeded in outlawing the 41 licensed
bars in the counties of Alcona,
Alcona, the liquor forces more than
overcame these gains by carry-
ing the county of Genesee with the
populous city of Houghton. In
this, it is certain that about 100
wet years ago, Calhoun county, which
had 57 bars two years ago, and Jack-
son, which had 100 bars, were not
likely that the bars in these
three counties will return in any
such numerical force as they
were. It is estimated that about 100
will be resurrected as a result of the
election, as against 44 outlawed.

The following towns in the counties
of Genesee and Calhoun with that
of two years ago shows the sweep
of the liquor forces. Two years ago
Genesee went for prohibition by 438
majority. Yesterday the liquor forces
in the county submitted a 39
majority. Yesterday the liquor forces
in Calhoun county was emphatically
prohibition by a majority of 464.
This year it goes for prohibition by
majority in the neighborhood of a
hundred. The Jackson liquor forces
won by a small margin, as did their
opponents two years ago. The
opponents decided to remain in the
license column by a majority not
quite so large as that of two years
ago when the saloon men carried by
2,073. This year the majority for
license is 500, the license counties
of Alcona, Calhoun and Huron
main license by very large majorities.

The returns taken as a whole, ap-
pear to indicate a change of state
policy prohibition to the dim future
and make it certain that the anti-
saloon forces in the state legislature
will have a hard time preventing the
passage of the small unit local op-
tion which is now up for considera-
tion in the lower house. This bill
provides for the institution of town-
ship local option for the present
county local option system in vogue
in the state.

Peach Parasites Cost \$3,000,000.
Approximately \$3,000,000 damage
was sustained by the peach growing
in the United States and Canada
to the Rocky mountains, last season,
from brown rot, scab and curculio, a
small beetle, according to a report
of the U. S. Department of Agricul-
ture. The heavy annual loss, almost
half the value of the crop, has been in-
vestigated by entomologists and
plant industry with a view to
preventing or minimizing the ravages
on a fruit that in commercial im-
portance ranks second only to apples.
It is estimated that with 113,750,000
bearing trees last season's crop ag-
gregated from \$12,000,000 to \$20,000,000. The bulletin also to be
upwards of \$3,000,000 damage yearly,
peach seed \$1,000,000 and plum curculio
\$3,750,000.

Convicted Man Takes Poison.
Joseph H. Griffin, aged 48, a well-
known Saginaw character, died in a
well-known Saginaw jail a short
time after he had been convicted in
the Bay County Circuit court of for-
ging a marriage license. It is cor-
rected that he took poison, although
no external evidence of it could be
found by doctors. A verdict of guilty was
rendered against Griffin about 4 o'clock.
On his way back to his cell he told an
attendant that the country would have
a good laugh at him. He died at 11
o'clock. He was a native of Michigan.
Charles T. Chapman, 69, pioneer
Michigan editor, died in Chicago. He
left a widow and a daughter.

Andrew Drexler, 69, of Owosso, has
sworn out warrants against his wife
and Guy Mark, who have been
hauling since Friday. Markhouse
\$900 from a \$1,000 bank account and
left a note giving his wife the other
\$100, saying that he was going to
Huron. He was arrested for the
United Home Protection association,
bankrupt three years ago. At Port
Huron, he started upon a journey
of some additional expense, as he was
going to die in a short time. Little
attention was paid to the remark. A
short time later he was found locked
in his cell. He was dead.

NEWS IN BRIEF.

The German navy's third manumoth
turbin cruiser was launched and
christened "Goeben" after the dis-
tinguished Prussian general. The
vessel is of the same class as the
Von der Tann and the Moltke.
"Brooklyn, N. Y.," may sound like
"Brooklyn, N. Y.," but a failure to
distinguish between the two places
in the Western Union Telegraph Co.
\$100, by decision of the supreme
court of the United States. The
verdict is won by Grove & Cronshaw,
of Richmond, Va., crane shippers
who sent the telegram to a customer
in Brooklyn.

The Congressional meeting house,
nearly 150 years old, a landmark in
New Braintree, Mass., was destroyed
by fire which started from an over-
heated stove. It was the most im-
portant public building in the town.
When the steeple was burned the
old town clock and an ancient bell,
prized on account of their long as-
sociation with the village life, fell
into the ruins.

Six hundred and fifty Chinese stu-
dents are enrolled in American col-
leges and universities, according to
Y. S. Tsao, of Yale, secretary of the
Chinese Students' alliance. Of these,
25 are in the University of Michi-
gan. More than 200 are paid \$900 a
year expenses by the Chinese gov-
ernment. The average age of the
young men is 25, that of
the young men, 24.
