

Our heart-to-heart talk with the University of Michigan Medical Center resulted in a unique program for managing heart disease.

Botsford General Hospital has joined the University of Michigan Medical Center to provide complete care for patients with heart disease.

Botsford is one of the first community hospitals the University of Michigan Medical Center (UMMC) Heart Care Program has partnered with as a Satellite Heart Transplant Clinic.

Patients who are candidates for heart transplant can be clinically evaluated at Botsford and then referred to the University of Michigan Medical Center for surgery. Following heart transplant, the patient returns to Botsford's Satellite Transplant Clinic for ongoing, individualized care from cardiologists who are on staff at both hospitals.

Our shared mission with the University of Michigan Medical Center is to reduce hospital re-admissions and improve the quality of life for patients with chronic heart disease. For more information, please call (810) 471-8870.
