

ONE WAY OF SAVING A BABY—FREE TO TRY

The mother does not live who would not do all in her power to keep her child healthy, but often she does not know how. So when a doctor of standing points the way all can afford to listen.

It is an accepted fact that nine out of ten of the troubles of infants and children is intestinal. Your notice is by the fact that the child is constipated, it belches, is peevish and cries. Don't give a remedy that contains an opiate, because the child will get in the habit of needing it, and don't become alarmed and run at once for a doctor.

Try a scientific laxative first. Give a small dose of Dr. Caldwell's Syrup Pepsin, the remedy that is intended

for the use of children. It is mild, gentle and non-gripping. The remedy is absolutely pure and is guaranteed in every particular. Mrs. Toomey of Emingsville, Pa., and Mrs. Fred Cronin of Alton, Mich., never give their children anything else. These are only a few among thousands of women.

You can buy a fifty cent or one dollar bottle of any nearby druggist, for they have all sold it for a generation. If you want to test it on your child first, send your address to Dr. Caldwell and he will cheerfully send you a free sample bottle.

Address him Dr. W. B. Caldwell, 402 Caldwell building, Monticello, Ill.
