### TWO TEAMS FROM PONTIAC

Beat Pontiac High 5 to 0 and  
Oakland Motor Co. Eleven  
to One

Farmington made a better showing last Saturday than they did on Decoration day. In the morning F. H. S. faced Pontiac High on the home diamond and whipped them with a score of 5 to 0.

The F. H. S. boys outclassed Pontiac at every point of the game. E. Wolfe caught for Farmington in Davis' place, Davis being laid up with his dislocated thumb. Johnson pitched and did good work, too.

Pontiac's third baseman got hurt while running bases. He was sliding into third and struck his forehead upon the ground. He was dazed for some time. He was taken to Dr. Miller's office and remained there several hours under the doctor's care, but in the afternoon was well enough to be taken back to Pontiac.

In the afternoon Farmington faced a team from Pontiac, representing the Oakland Auto company. Farmington put up a snappy game of ball. Everyone seemed to be at his best Saturday. W. Johnson pitched in the afternoon again for Farmington and held the stout Pontiac hitters in fine shape. Johnson is developing into a first-class pitcher. If he

keeps on he'll make the major leagues yet.

Herman Maas batted in his old style, too, knocking out the long est drive that has been seen for a long time on Farmington grounds and making an easy home run out of it. All of the Farmington boys fattened up their batting average on the Pontiac pitcher. Farmington's fielding was beautiful to behold also. If our boys can only keep this up we will be winning everything soon again in our old time style.

The score in the afternoon's game was 11 to 1 in favor of Farmington.

### A D. U. R. Hold-up at Farmington

An innocent, looking little red wheelbarrow caused considerable commotion and some excitement for a few moments Monday morning. It stood on the D. U. R. track next to the freight house platform and unlike the rest of us would not get off the track when a west bound car came along, but bravely stood its ground and disputed the right of way with the heavier vehicle. And the funny part of the story is that the humble wheelbarrow won out, too.

As the two came together the little fellow gave the big one a punch in the ribs, or thereabouts, that knocked the wind out of him while the motorian squealed enough and the battle was over. The noise of the explosion of the air tank and the escaping pressure is what caused the excitement and quickly drew a crowd. The wheelbarrow was unhurt, but for a time was an orphan for nobody in the crowd would own it as long as the car crew was around.

### Committee to Inspect Water Works

The council, at its session Monday night, took up the water question with a will, and after a free discussion they voted that a committee be appointed to make a full and careful investigation of the matter and to fully satisfy themselves as to the best method to adopt for supplying the village with a good water system. The committee consists of Aldermen Nichols, Meyers and Schroeder with president McGee. Ex-Governor Warner has also been asked to act with the committee.

The gentlemen are going to take sufficient time to fully familiarize themselves with modern methods and will visit various places where water systems have recently been installed. It is expected to determine what is best adapted to Farmington and get ready so the people can vote on the matter next spring.

### Next Sunday's Services

M. E. services, June 11: Morning, "An address to the younger folk." There will also be a baptismal and reception service held in the morning at this service. All who would like to join with this society are most cordially invited to attend and to have a share in this reception service.

The evening service will be in charge of the superintendent, officers, teachers and scholars of the Sunday school, next Sunday being our annual children's day. A splendid program has been arranged, consisting of songs, solos, choruses, readings and recitations by the Sunday-school scholars. All are most cordially invited to attend this service. We usually have a crowded house, at such times and everybody is requested to come early so as to secure a good seat.

An enormous amount of bait is being fed to the fishes in the lakes hereabouts.

## LIKE OCEAN TRAVEL

Real Steamer Chairs are on the  
New Boat, Put-In-Bay

"You need not go abroad any more now to enjoy real steamer chairs," says R. A. Dustin, general manager of the Ashley & Dustin Steamer Co. "Our new steamer, 'Put-In-Bay,' soon to be placed in commission will have one deck fitted out entirely with genuine ocean steamer chairs. This feature will be on the upper deck."

Ocean steamer chairs are a decidedly new departure for lake boats and the "Put-In-Bay" is the first on the Great Lakes to be fitted out with them.

The deck containing these chairs being the upper one there will be no covering except an awning which will be removed every evening at sundown. Who could imagine anything more enjoyable than to sit in a real genuine steamer chair on a warm, balmy evening with the cool breezes fanning your face and only the sky and the stars out above, and this all on the Great Lakes too.

The steamer chair deck will be reserved exclusively for holders of chair tickets—no one else being permitted there makes it very quiet and pleasant for the passengers.

"We wanted to give the people the most pleasure possible on a water craft," says Mr. Dustin, "and we didn't see how we could claim to do this if we left off the ocean steamer chairs."

All who have been on the big ocean boats know the real comfort of steamer chairs, but for the benefit of the passengers who do not know Mr. Dustin says they are far ahead of the Morris chair and even the Pullman car seats.

Surely pleasure seekers will not go begging for real enjoyment on the water this summer.

### Minstrel Show Was Big Success

The minstrel show given by the choir and Epworth League last Friday and Saturday nights was a splendid success. The hall was comfortably filled each night and the audiences seemed to appreciate the good amateur performance. All parts of the program were well received and the final chorus was declared the best of its kind ever presented in our village. The societies cleared about \$50 out of the concert.

### "The Last Day of School"

The school in Livonia Dist. No. 2 closed recently for the summer vacation. Miss Louisa Simmons, the popular teacher, withdraws after a very successful year's work. The parents, pupils and friends met at the home of Richard Wolfe, where a picnic on the lawn was enjoyed by all. Swings, base ball and games were indulged in by the young people. Miss Lavilla Adams gave a recitation and was heartily endorsed. Helen Bradley gave a comic recitation and Harry Wolfe sang a solo.

Mrs. Wolfe, in behalf of the directors, presented the prizes to the boy and girl most worthy. Asa Kahri and Helen Millard being the honored ones.

Miss Simmons treated all to ice cream and cake, and candies and nuts were donated by the school. The company then dispersed, wishing Miss Simmons success and happiness in her future home.

In the program of the 37th annual meeting of the Michigan Pioneer and Historical society, which is being held at Lansing this week, we note that ex-Gov. Warner speaks in memory of P. Dean Warner.

## There Are Two Honest Ways

in which a poor man may become wealthy. One is by saving a part of his income regularly and putting it into the bank until it amounts to a comfortable fortune. The other is by saving his money and investing it in profitable enterprises. In either case the bank is a necessity. And whichever way you try, this bank is glad to hold out a helping hand and assist you in every way possible. Have an account with us—become one of our patrons—and see.
