**If You're a Man,
You May be At Risk.**

Talk to your doctor about prostate cancer. Your prostate is a small gland located at the base of your bladder. Many men don't even know they have a prostate or that prostate cancer is common, especially among older men. In fact, prostate cancer is the leading form of cancer in Michigan.

What should you do?
If you're between 50 and 75 years old, ask your doctor if you should be tested. Have this talk when you turn 40 if there is prostate cancer in your family or if you're African American. And if you experience pain or discomfort when you urinate, see a doctor right away.
