

Thomasville's Upholstery Has All The Advantages You're Looking For...

- Back pillows / Belmore® with Premium High Resiliency foam that is encased in ticking which closes with metal clips. Advantage: Superior comfort while paying attention to detail.
- Superior tailoring including a minimum of 8 stitches across per inch. Advantage: Assurance of years of satisfaction.
- Seat cushions filled with environmentally safe highly resilient polyurethane foam core (3.0 Density). Advantage: Superior Comfort.
- Front Edge roll covered with cotton batting and sewn to the seat deck. Depending on the style of the back, front cushion support made of:
 - Spring edge construction with woven fiber rope support.
 - Stationary front edge construction with tie to wing support. Advantage: Provides better shaping & cushion support.
- Liner fabric laminated with a structural inert material. Advantage: Lasting smoothness & shape.
- Eight-Way Hand-Tied tapered steel coil coil springs.
 - Polyester coils on a laser gauge. Advantage: Eliminate comfort & support including the perimeter area.
 - Back support with reinforced & reinforced base plate. Advantage: Added structural frame strength.
- Laminated woven polypropylene strapping & high density polypropylene sheet. Advantage: Provide long lasting spring supports.
- Continuous wire springs fitted by union resistant coils. Advantage: Long lasting, comfortable backs.
- Covered foam arm pad - covered with high density foam & one layer of cotton batting. Advantage: Softness & Resiliency.
- Flare padded seat area & seat back. Advantage: Provides soft, crisp look & added durability.
- Seats are double dovetail, glued & secured together by reinforcing wood corner & chest blocks. Advantage: Added structural strength.
- Independent leg construction. Advantage: Added structural support & easy replacement if ever necessary.
- Frame constructed from kiln dried hardwoods & select tropical hardwoods.
 - Two frame corner support rails. Advantage: Provides greater structural strength & durability.
- Docking of woven polypropylene covered by 1/2" deck insulator padding (attached off); a woven rayon seat deck material. Advantage: Additional comfort & durability.
