

## 2-story house offers 3,469 square feet

The brick, glass and stone exterior of the Image emits an aura of elegance that is coveted in today's house design market. Step through the covered entry into a wide foyer that is open to the upper level, and the meticulous planning of this 3,469-square-foot beauty becomes evident.

The first floor accommodates the majority of communal living areas in the floor design. The foyer, with a guest closet on either side, opens to the living room on the right and the formal dining room on the left. The dining room, boasting a built-in arched showcase, abuts the walk-through kitchen. This arrangement permits the host to serve a sumptuous meal without neglecting company. The spacious kitchen features an island cooktop, trash compactor and double ovens. To spare your guests any inconvenience from the weather when departing, a covered port-cochere is accessible through a side door.

The comfortable living room, with a huge bay window, is another site the Image offers for gracious entertaining. Adjoining the living room is a combination library and home office.

Bookshelves line the walls, and whether you use this space for business or maintaining household accounts, you will appreciate the hidden safe room. A large utility placed next to the two-car garage, a half-bath and sunny breakfast nook complete the lower level.

The second floor holds all the sleeping areas. The isolated master suite is enormous. Next to the sleeping section is a roomy sitting area. Other amenities include a private patio, huge walk-in closet and private bathroom with skylights, linen storage, twin basins and compartmentalized toilet.

Three additional bedrooms are on this level. They are all quite sizable and have

substantial closet space. Any of these, if not needed for sleeping purposes, could be converted for use as a music chamber, den or sewing room.

The big recreation room will hold a ping-pong table, big-screen TV and a couple of couches. A side door opens onto an extended deck. A full bathroom is directly adjacent to the rec-room. The floor design of the Image also includes a 1,584-square-foot basement.
