KITCHEN and BATH ideas

Presented by Carl J. Crespi & Mark Pronoff

KITCHEN UPDATE

If homeowners want evidence that an updated kitchen is one of the primary factors that home buyers take into consideration, they need only see that the most recent ranking of home improvements as investments by a leading trade publication for remodeling contractors lists two kitchen remodeling in its top four projects. While a minor kitchen remodel comes in number four with an average return of 85% on investment, the job consists of completely redesigning a 200-square-foot kitchen and installing all new semi-custom wood cabinets, plastic laminate counters, radiant flooring, custom light fixtures, sink, faucet, wall oven, ventilation system, microwave oven, dishwasher, and garbage disposal. Also included is the construction of a 3rd hot water heater with cooling.

As this week's column notes, an updated kitchen adds to the value of a home. Whether you're designing a new kitchen or remodeling an old one, the talented interior designers of MODERN KITCHEN & BATH will guide you through every phase of the planning and installation process. Customer satisfaction is our tradition. Our years' line of fine cabinets are ingeniously designed to make the best use of space. Our DuPont Corian® solid surface is the most beautiful and durable. Visit our beautiful showroom at 819 E. Fourth St. or call us at 810-546-0660 to learn how you can add value to your home.

HINT: The trade magazine's comprehensive annual study mentioned above helps homeowners determine which improvement projects are the best investments by looking at which projects receive the highest percentage of five star cost.
