

New staffer joins SWOCC

CABLE CONNECTION

The Southwest Oakland Cable Commission has created a new position to make community access and governance easier and better. We welcome Eric Angott, our new video operations manager at the SWOCC and INFO TV-12 Studio.

Eric is no newcomer to the community or community access. He grew up in Farmington Hills and became involved in Community Access TV in his sophomore year at Harrison High when he was working on stage productions.

It was there that he met Farmington Hills Video Production Supervisor David Teitmeyer. David came to Harrison to do a TV show for the Hills Senior Division. Eric assisted him on it.

New Women's Center Opening February 1997

My Health. My Needs. My Hospital.

"The women's programs at St. Mary Hospital meet all my needs."

My doctor said I needed a few tests, and told me about St. Mary Hospital's new Marian Women's Center. It's close to home, and the staff is committed to keeping women healthy. I found a warm, caring atmosphere designed to help women feel comfortable.

The Center provides education and support programs for women of all ages. Diagnostic testing like mammography, radiology, and ultrasound are also available, as well as a complete breast health clinic.

The Marian Women's Center, adjacent to the new Miracle of Life Maternity Center, provides

family services like childbirth education, a breastfeeding program, and even pre- and postnatal exercise classes. We're planning to start a family soon, and all the programs I need are now available close to home.

My mother was interested in the Marian Women's Center menopause support group, which educates women and removes some of the mystery about this time of life.

And, if I want more information about health topics concerning women, I can attend specialized seminars throughout the year.

The Marian Women's Center cares about women. That's why St. Mary Hospital is my hospital.
