# AMERICA'S VETERANS ARE BEING SOLD OUT

Veterans in Michigan should be outraged that the federal budget proposed by the President and passed by the House and the Senate calls for the deepest cuts in veterans' benefits in recent memory.

These cuts will seriously hurt veterans—and their families. Nationwide, in the next five years, more than half a million disabled and needy veterans could be denied VA health care.

These cuts mean slashing needed funding for VA hospitals. Dozens of these hospitals may have to close their doors.

The same cuts will delay needed compensation to disabled veterans; some have already died waiting for their claims to be processed.

Incredibly, the same budget calls for billions of dollars for new programs—programs being paid for at the expense of veterans who served and sacrificed in defense of America.

For the sake of America's veterans, please contact Congressman Joe Knollenberg. Tell him to do what's right and support full federal funding for veterans' programs.

Call Congressman Knollenberg today at 1-800-962-3524 and tell him:
