U. of M. Should Get More Money.
Regent Junius E. Beal has received a letter from a member of the state board of equalization in which the board member states that the annual income of the University of Michigan would be increased \$185.000 if the assessed valuation of the state was equalized as it should be estate as exceed valuation should be \$13.000.000,000 instead of a billion and three-quarters, as now. He also expressed the opinion that the valuation of the from mines should be boasted \$199,000.000. Should all this be brought to pass the inversity would receive \$565,000 a year.

Ingham country, the writer says, is assessed, at only 20 per cent of its valuations, and similar conditions exist in other counties.

This number corresponds to an annual birth rate of 20.7 per 1,000, estimated population. A decrease of 221 in noted in the number of births returned for July, as compared with June.

Mines to Escape Big Tax Boost.

From information that seems to be reliable, the report of Professor Findlay of New York will recommend to the state tax commission that the tron mines of the upper peninsula be assessed at nearly 400 per cent. more than they are at the present time, or approximately \$100,000,000, instead of \$25,000,000. Just what the state board of equalization will do, with this report of course is not known, but it is believed they will not boost the four inproproducing counties, namely, fron, Dickinson, Gegebic and Marquette, 400 per cent. in valuation, They will, however, according our present information as a great deal. The state board of equalization boosts of the state board of equalization boosts the valuation of the fron-producing counties, which seems probable, then the small taxpayer will be compelled to pay his share of the tax that should be justly apportioned to the 'fron mines will be made by the local assessing officers before the report of the state board of equalization to the ron mines of the state board of equalization is made and unless the state tax commission takes a head and orders a special re-assessment, which they will not have the time to do, the 'fron mines will be appropriated to the iron mines on the time to do, the 'fron mines were will be easier a special re-assessment, which they will not have the time to do, the 'fron mines were will eacaps a large tax for this year.
