Some safety tips for hunters

Pheasant, duck, grouse, squirrel and rabbit seasons are already open as well as the archery deer season. And the highly anticipated firearms deer season is right around the corner. The woods are full of nimble pursuing their favorite game animals.

Hunting is a safe recreational activity and the fall and winter seasons in Michigan offer plenty of terrific opportunities. Before venturing into the field be sure that you know how to think about safety and to review the 10 Commandments of Firearms Safety. In case you forgot them, here they are. Clip them out and hang them in the cabin at hunting camp, so everyone will take a moment to think about safety in the field.

Treat every gun as if it were loaded. You can never be too careful. Crack open the breech of every gun, especially the ones that are "unloaded," as soon as you pick it up.

Always keep your gun pointed in a safe direction and keep your finger off the trigger. Be aware of where your muzzle is pointed at all times and never point a gun at yourself or anyone unless you are sure it is unloaded. Don't put your finger on the trigger until the moment you are ready to fire the gun.

Know your firearm and its limitations. Check your gun before leaving home and be sure it is in good working condition. Be sure the barrel is free of obstructions and double check to be sure the ammunition you have matches your firearm.

Keep your gun unloaded until you are ready to use it. Why take a chance and leave a loaded gun lying around camp. Unload your gun when you leave the field and don't load it again until you are ready to hunt. It only takes a minute to load and unload your gun so the excuse that you'll save time when you head back out by leaving your gun loaded is useless.

Be sure of your target and what is beyond your target. Each year someone is accidentally shot because they are mistakenly taken for game, or are in someone's line-of-fire. There is no excuse for misidentification. Humans, in no way resemble game animals. Never shoot at sounds or movements and always look beyond your target before squeezing off a shot to be sure no one has ventured into your area. A moment of recklessness can cause a lifetime of grief.

Don't take chances with a loaded gun. If you're alone and must cross a fence unload your gun and place it on the other side of the fence before crossing. If you're hunting with someone else unload the guns and pass them over the fence. Also, never use your scope for spotting. Use binoculars so you don't spot another hunter by pointing a

loaded gun at him.

Beware of fatigue. When you've been in the field for a long time fatigue can set in, which can cause carelessness. Don't take a chance. Go home and take a nap, or find a shady tree and take a nap but be sure to unload your gun. You don't want to wake up in a stupor and have to make a snap decision with a loaded gun.

Use care when practicing. When target practicing be sure your backdrop will prevent ricochets and pass through shots. Always wear eye and ear protection.

Store your gun safely. When not in use store your gun in a safe place, separate from the ammunition. Guns and ammunition should always be locked up and out of reach of children.

Alcohol, drugs and firearms don't mix. Never use alcohol or mind altering drugs before or during target practice or hunting. It is not only illegal, it is extremely dangerous. If someone is on a hunting party consumes alcohol or drugs keep them out of the woods and away from the firearms.

The fall hunting seasons can be very enjoyable. Let's all work to keep them safe as well.

Anglers and hunters are urged to report their success. Questions and comments are also encouraged. Send information to 805 E. Maple, Birmingham, MI 48009. Fax information to (810) 644-1314 or call Bill Parker evenings at (810) 901-2573.
