

FREE SAMPLE CURED OLD PERSON'S BOWEL TROUBLE

One of the most remarkable proofs of the unusual laxative merit contained in Dr. Caldwell's Syrup Pepsin is that it is effective not only in people in the prime of life, but at the extremes of ages. As many letters are received from mothers regarding the cures of children, as from men and women of sixty, seventy and eighty years of age. It must be truly a wonderful laxative.

In the cure of constipation and bow trouble in old people it has no equal. It corrects the constipation, dispels the headache, biliousness, gas, drowsiness after eating, etc. People advancing in years should see to it that their bowels move freely, and if they do not to take Dr. Caldwell's

Syrup Pepsin. You can prolong your life by healthy bowel action. Clogged bowels invite disease. Women about to pass the menstrual period cannot do better than take Syrup Pepsin several times a week until the system has settled to its future condition.

Among the strongest supporters of Dr. Caldwell's Syrup Pepsin are Mr. W. G. Zorn of New Decatur, Ala., and Mr. George S. Spaulding of the National Soldiers' Home, Kansas, both elderly men. The regular size bottles can be bought of any druggist at fifty cents and one dollar, but a free sample bottle can be had by sending your address to the doctor.

Address him Dr. W. B. Caldwell, 402 Caldwell building, Monticello, Ill.

HIS REASON IS RETURNING

Ignace Man, Formerly Member of National Guard, Drills Other Inmates of Asylum.

A Chicago man with a large acquaintance because insane within a year, and is now an inmate at a state asylum. One of his friends telephoned the hospital the other day to find out about him.

"He's the happiest man here," said the doctor, "and I look for his cure. He is getting big and strong and ruddy and he is doing wonders for 12 other patients."

"In conversation with him, I found out that he had been in the National Guard, and I asked him how he would like to drill a company. 'Fine,' he said. So I got him a uniform and a sword and gave him a canceled beer stamp for a commission."

"In good weather he marches those 12 men all over the grounds as if he were the marshal of an army on parade. His soldiers are just as much interested as he and keep step proudly. I think they march four or five miles a day."

"When they are off duty and see him coming they step to one side and salute."

"Their physical condition is perfect, and I hope to see their reason come back."—Chicago Post.

TAKING A LOOK BACKWARD

Picture of Life Upon Our Atlantic Shore as It Was Two Centuries Ago.

Brush away the fog of a couple of centuries, and take a look at this, our native land, as it then appeared. Here upon the Atlantic shore, the scream of the panther arose on the midnight air with the savage war whoop, and the pale-faced pilgrim trembled for the safety of his defenseless home. He planted his beans in fear and gathered them in trouble; his chickens and his calves were plundered by the foe, and life itself was in danger of leaking out from between the logs of his hut, even if it was fortified with three muskets, a spunky wife, and a jug of whiskey. Yes, my friends, this was then a wild, gloomy and desolate place. Where the Indian squaw hung her young papoose upon the bough and left it to squall at the hush-aby of the blast, the Anglo-Saxon mother now rocks the cradle of her delicate babe on the carpet of peace, and in the gay parlor of fashion. The wild has been changed to a blooming garden, and its limits are expanding with the mighty genius of Liberty—Lorenzo Dow, Jr.

Uses for Cotton Waste.

Watch a man facing the problem of grease, with his motor. He has one unfailing remedy—cotton waste. If the machine needs cleaning, he produces his bunch of waste. If the oil is dripping to the floor, a handful of waste removes it. If his hands are greasy, he doesn't use a good towel, and then try to wash it; he uses cotton waste and burns it when it will absorb no more. If women who do their own work would go to the nearest hardware store and buy this inexpensive cotton waste, they would find their labors much lessened. The sawdust, or the grease frying pan, if wiped with the waste soon after being taken from the stove, will need nothing more than rinsing. And dishwashing would be made easy if all greasy and sticky dishes were wiped off with the waste before being washed—Good Housekeeping.

Financial Genius.

"Do you think there is any such thing as financial genius?" "I am sure there is. I know a young man who has it in a marked degree. After he had persuaded the beautiful daughter of one of our most prominent jewelers to become his wife, he went around and induced the old man to let him have an engagement ring at the cost price."

"I don't see any indication of remarkable financial genius about that." "Wait. When he and the girl broke their engagement he took the ring back to her father and got him to pay eight per cent. interest on the money that had been loaned."

Good Snake Story.

This story is told of the late Dr. Emil Reich. One day while traveling he lay down to rest in the shadow of a bush and fell asleep. He awoke with a start to find that night was coming on and that rain had begun to fall. Quickly snatching up his umbrella, he tried to open it, and finding it worked stiffly, he pressed the spring vigorously. Suddenly there was a sound of ripping and tearing, and a snake fell to the ground split in two. The reptile had apparently swallowed the umbrella so far as it could!—Exchange.

Cook Without Pan.

A missionary in an account of life in the South Pacific says: "The problem of cooking without pots or pans is already proved. The natives of the Society Islands cook their food in a hole in the ground, a wood fire being made at the bottom and covered with stones. On these the food is placed, wrapped in leaves, and the whole covered with a thick layer of earth. The result is delicious. When cooked the food is served on leaves, thus doing away with the necessity of crockery. I lived in the South Sea Islands without crockery, cutlery, chairs, tables or beds."

AMERICAN FENCE

Made of Hard, Stiff Wire, of Highest Quality

Good Fences are a farm investment that bring the most returns for the least money

ARE you losing money? If you had a hole in your pocket, out of which you were losing hard-earned dollars, would you sew it up? The time has arrived when a fence around the farm is as much a necessity as a cultivator.

If you are feeding 60c or 70c corn to hogs in a dry lot, allowing good, green feed to go to waste on other portions of your farm, you have a hole in your pocket, out of which you are losing money, hard-earned dollars. Sew it up.

Look up an American Fence dealer and let him show you how a few dollars invested in fence will yield a big big return on feed saved.

American Fence is made of hard, stiff steel. It is made of a quality of wire drawn expressly for woven-wire-fence purposes.

Galvanized by latest improved process—the best that the skill and experience of years has taught. Built on the elastic, hinged-joint (patented) principle, which effectively protects the stay or upright wires from breaking under hard usage.

The real test of a fence is the service you get out of it. Test, judge and compare American Fence under any and all conditions, and you will find that the steel, the structure and the galvanizing are equal in durability, strength and efficiency to the hardest usage.

Big Catch of Swordfish.

The fishing schooner Ada Bell, Capt. Harry Christopherson, came in Monday with the largest catch of swordfish reported by any of the local schooners, 24 being the number caught in a week.

The boat left here a week ago yesterday and struck the fish quite plentiful. The fish were all large and seem to be working in shore. This record catch was shipped to Boston and markets from Stenington.—North Correspondence New London Day.

Mrs. J. C. Meade, of Hyattsville Md., says:

"For years I have suffered with Backache; Headaches, Neuralgia, and Nervousness and Extreme Fatigue. I tried many remedies without relief. Four months ago a grateful friend induced me to write to Pope Medicine Co., Washington, D. C., for a box of Pope's Herb Compound Tablets; the very first dose of two tablets gave me relief. I used not quite a \$1.00 box and I am entirely cured of the pain in my back and have no more headache."

Dr. J. F. Hennessey, a prominent physician and surgeon of Albany, N. Y., in part says:

"As a Blood Purifier, Liver, Kidney and System regulator, I prescribe Pope Medicine Co.'s of Washington, D. C., Herb Compound, as I have done for the past 20 years, and I have found it to be a great remedy, which seldom if ever fails. There are thousands of letters from users of Pope's Herbs, that have been benefited and cured by its proper use. Pope's Herb Compound Tablets are put up 200 in a box, 'six months' treatment,' and will be sent post-paid on receipt of \$1.00. Each box contains a printed guarantee binding us to refund the purchase price if the remedy fails to benefit. Also full directions."
