IS EXTREME OF DESOLATION

Unfinished Card Game, With Pastboards Lying Just Where the Players Left Them.

Asked what slight represented to his mind the extreme of desolation, the renting agent said:

"An unfinished card game, with the cards lying just where the players left them. This morning I came across an interrupted game of hearts in a furnished flat that was vacated suddenly. The tenants simply picked their clothes and moved out without a word of explanation to anybody, and as they didn't owe me a cent it wasn't my place to run them down."

"They had been playing on the dining room table, and the game was about half finished. Four hands of cards thrown down, when the game was anybody's that knew how to turn a trick worked on the imagination. Why did they stop playing in such a hurry? Why didn't they stay to finish the game, or if they couldn't do that, why didn't they scrape the cards together and take them along? Interesting questions, those, and I'd like to have them answered."

KINDNESS IS HER STRENGTH

Mother of Large Family Whose Love Has Made Her Children Most Admirable.

I know a mother of a large family of children who has never whipped but one of them, and that one only once, declared Orison Sweet Marden in Success Magazine. When her first child was born people said she was too good to bring up children; that she would spoil them, as she would not correct or discipline them; and would do nothing but love them. But this love has proved the great magnet which has held the family together in a marvelous way. None of these children have gone astray. They have all grown up to be manly and womanly, and love has been wonderfully developed in their natures. Their own affection responded to the mother's love and has become their strongest motive. Today all her children look upon "mother" as the grandest figure in the world. She has brought out the best in them, because she saw the best in them. The worst did not need correcting or repressing, for the best neutralized it.

Good Use for Old Wire Rope.

Old wire rope is used in certain French mines for reinforcing old timbers, especially the cap pieces of sets. The old rope is stretched longitudinally around the timber, the ends being held fast between the roof and the top of the cap piece so they cannot slip. When a timber starts to bend under the weight of the roof part of the tension is taken up by the wire cable, enabling a miner to put in additional supports before a fall occurs. The ends of the cap pieces are tapered and grooved deep enough to receive the rope and prevent any part of it projecting beyond the bearing ends of the timber piece.

PROTECT The Health of Yourself and Family

Pope's Herbs is prepared to provide a dependable household remedy, based upon the principle of purity of blood, insuring freedom from disease. It is a medicine for malaises such as Rheumatism, Liver Complaints, Constipation, Fever and Ague, Female Disorders, Eczema, Catarrh, Skin and Nervous Headaches, Loss of Appetite and all ailments arising from impurity of the Liver and Kidneys.

It's a purely Herbs, Backs and Roads Compound. It is put up in Chocolate coated Tablets (pleasant and easy to take; it can be dissolved in water.)

Mrs. J. C. Mott, of Hyattsville, Md., says:

"For years I suffered with Backache, Headaches, Neuritis, and Nervousness and Extreme Fatigue. I tried many remedies without relief. Four months ago a grateful friend induced me to write to Pope Medicine Co., Washington, D. C., for a box of Pope's Herbs Compound Tablets; the very first dose of two tablets gave me relief. I took not more than six tablets and I am entirely cured of the pain in my back and have no more headaches."

Dr. J. F. Hennessey, a prominent physician and surgeon of Albany, N. Y., in part says:

"As a Blood Purifier, Liver, Kidney and System regulator, I prescribe Pope Medicine Co.'s of Washington, D. C., Herbs Compound, as I have done for the last 20 years, and I have found it to be a great remedy, which seldom if ever fails. There are thousands of letters from users of Pope's Herbs, that have been benefited and cured by its proper use. Pope's Herbs Compound Tablets are put up 200 in a box, 'Six months' treatment,' and will be sent post-paid on receipt of \$1.00. Each box contains a printed guarantee, binding us to refund the purchase price if the remedy fails when used as fully directed."

Guaranteed by the Pope Medicine Co., Inc., under the Pure Food and Drug Act, June 30, 1906, No. 34956.

Cartercar

Why So Many Farmers Are Buying the Cartercar

There are many good reasons why the Cartercar is being universally accepted by farmers as the ideal car for their purposes. It is simplicity itself—even a boy can operate and care for the Cartercar without injuring it in the least.

This Wonderful simplicity combined with extra strong working parts insure absolute reliability. The Cartercar is ready all the time—day or night for the signal to go.

The Cartercar is powerful—by that is meant that it will climb almost any hill, even a 50 per cent grade, and will go through very bad, muddy or sandy roads. The farmer can drive his Cartercar out in stubble fields or pastures, across brooks, and he knows that his car will always go right along.

The remarkable pulling power of the Cartercar is because of the efficient friction transmission. This is merely a friction disc which runs against a fibre faced wheel—the relative position regulating the speed of the car. There is no crashing of gears—the speed being changed easily and noiselessly. The Cartercar driver has any number of speeds and THEY ARE ALL CONTROLLED BY ONE LEVER.

The Cartercar will speed along brushing everything on the road—or will creep along behind a dock of sheep or drove of cattle, never crowding or rushing them.

This wonderfully easy control makes the Cartercar ideal for the ladies to drive. The few parts makes it very easy for them to learn to operate it—and prevents them getting frightened.

The easy control is supplemented by very strong brakes. In addition to these regular brakes the driver also has the friction reverse, which makes it the safest car on the market today. The friction reverse is only available on friction drive cars.

Another excellent feature of the Cartercar is the Chain-in-Oil Drive. The chain runs continually in a heavy oil—and the chain case being grit and sand tight, practically all wear on the chain is prevented.

The elegance and remarkably attractive appearance of the Cartercar also make a very strong appeal to the farmer. A glance at the above cut will convince you of its beauty. The extra heavy upholstery on the seats makes it almost an impossibility for a person to tire while riding in a Cartercar.

Think over these facts we have given and see if they answer the requirements you would make of an automobile. We know that when you understand the Cartercar you will be as enthusiastic as we are.

Let us send you complete information regarding this ideal car for the country man.

A Personal Invitation to You, Mr. Farmer

I want to personally invite every reader of this advertisement to visit me here at the Detroit Branch of the Cartercar Company, and I will be very glad to explain carefully every detail of the Cartercar construction.

I met thousands of farmers at the State Fair and after I had shown them the Cartercar an astonishingly large number of them went home with cars.

Write me when you will arrive and I will meet you at the Interurban or railway station with a Cartercar, and show you over the city, giving you an opportunity to study the qualities of the car in a most practical manner.

When you write tell me the style of car you are interested in and I will try to have that car at the station to meet you.

TRIUMPH OF WATER FINDING

English Expert Locates Ample Supply, Gauging Depth Below Surface Within Two Feet.

A very remarkable achievement in "water-finding" has been carried through at Selly Oak, Birmingham. It was necessary to discover a supply of water on the land belonging to the Post Office works, and Mr. Chesterman was called from Hereford for the purpose. He went over the land with his piece of aluminum wire for about half an hour. Then he suddenly stopped and declared that at the place where he stood water would be found at a depth of 250 feet. A contract was signed by which he engaged to sink an eight-inch artesian tube which should produce not less than 15,000 gallons of water a day, on the condition "No water, no pay." He employed hydraulic boring machinery, and in fourteen days struck water at a depth of 245 feet, and test pumping for 29 hours proved a yield of 30,000 gallons per day. That the expert should have gauged the depth within two feet is considered one of the greatest triumphs in water-finding of modern times.

Explaining It.

A man was recently fined for assaulting a policeman, and considering himself badly treated, made abusive remarks about the court as he was leaving the dock. An officer was sent to bring him back, and he was again fined, this time for contempt of court.

"My friend," said the magistrate, "if you had been more chaste and refined in your language you would not have been so hauled and re-fined."—The P. M.
