Farmington wants to grow but cannot do it. There are a lot of families who want to live in the village but there are no houses for them. Undoubtedly 20 new houses would be occupied within 60 days if we only had them. This is a serious problem and there ought to be a way to solve it.
The Canning Company has put up 10,000 cans of tomatoes this season. With a late start and the first season this is not a bad showing. Manager Ely put up 1328 cans in one day, that being the largest output for a day during the season. Another year if the farmers produce the crop the company will be able to can several times as many tomatoes as they did this season.

FOLEY'S ORINOLAXATIVE
FOR STOMACH TROUBLE AND CONSTIPATION

True Enlightenment.
"When we get enlightened we find that the way to attain harmony with God is by conforming ourselves to him, not by seeking to conform him to us. By and by we find that there is a God of infinite perfection in power, wisdom, justice, love and holiness; and then we find that God needs no instruction, for he is all wise, and before the beginning he knew all which would happen in the history of the human race. He needs no appealing to alter his affection, for he is all love, and has an infinite desire to confer the highest possible or conceivable blessing in the whole human race, and on each individual thereof. When we come to this conclusion we take pains to bring ourselves into harmony with God. All sacrifice disappears; all mutilation of the flesh or spirit, all ceremonies which do not grow out of the natural wants of mankind."—Theodore Parker.

Not Satisfactory.
"No, sir," said a clerk to his employer, "I do not think there's anything unreasonable in my asking for an increase of salary. You may remember that you promised me a raise when I had been with you a year."
"I know I did," rejoined the employer; "but didn't I make it condition on your giving me every satisfaction?"
"In what way?" replied the employer, with a show of anger. "Do you think you are satisfactory in my asking for an increase of salary?"—The Wasp.

Watched.
"No, Herbert," whispered the maid, "you mustn't put your arm around me. We are watched."
Herbert looked around the dimly lighted parlor.
"O, yes," he smiled. "I see there's a rubber plant at the other end of the room."
"Sh! There's another one that you don't see. Johnny's hiding there!"
