Anyone who played varsity football for North Farmington between 1963 and 1984 is invited to attend a reunion and celebration in honor of former coach Ron Holland.

Holland, who coached the Raiders during those years and then served as athletic director, retired in June after 38 years with Farmington Public Schools.

The calendar of events includes a golf outing and dinner on Friday, Oct. 9. Following a luncheon, the North Farmington football field will be dedicated in Holland's honor on Saturday, Oct. 10. For more information call Don Robie at (248) 853-1288.

Teeters from page C1

Malek said he now is in the process of taking applications for the varsity post. He said Wyatt and Wells have been asked to return next season in their same positions.

"It was a tough decision for me, because I have a hard enough time keeping good coaches," Malek said. "Nobody disputes Tom is a great coach. He knows his volleyball and is an outstanding 'Xs and Os' type."

"But due to philosophical reasoning, we had a difference on how to run the program in general for the sake of the freshman, JV and varsity levels. It was best to go our separate ways and best for Ladywood. And the best time is to do it now."

Teeters became Ladywood's varsity coach in 1987 after Mike O'Toole left for health reasons. He made an immediate impact as the Blazers finished 32-9 and won the Catholic League playoffs.

Teeters has been successful

nearly at every stop on the coaching carousel. He led Livonia Clarenceville to the 1978 state Class B championship and has coached at Farmington Hills Mercy, Wayne State University, Garden City and Schoolcraft.

Ironically, Teeters left the Garden City varsity program in the mid-1980s when he clashed with administrators over the hiring of middle school coaches.

Last season, Ladywood finished 63-9-1, winning the district, regional and Catholic League titles before being ousted in the state quarterfinals for the third straight time by longtime nemesis and eventual state-champion Temperance Bedford.

"What I'll miss at Ladywood is the kids and the parents," Teeters said. "And I've always enjoyed working for the Felician Order."

"The most important thing is the kids first. The experience I've had at Ladywood has been a

very rewarding one for me."

Where Teeters may end up is anyone's guess, but two premier prep jobs are open — Plymouth Salem and Birmingham Marian. Teeters said he has not spoken with Sister Smith since the decision was made by Malek on Wednesday. He hoped to have at least one more meeting with the principal.

"If Sal says she supports his decision, then I guess I'm gone," Teeters said.

When reached on Tuesday, Smith reiterated that Teeters would not return.

"All three coaches were spoken to at one time, this is the end decision," the principal said.

Jenny Young, a 6-foot-1 senior-to-be who made first-team All-Observer last spring, was somewhat stunned by the news.

"I don't know what's going on,"

she said. "I haven't heard officially. Nobody has told me anything. But if it's true I'll be very disappointed, because he's such a good coach. It's been fun having him as a coach."

Young, an honor student who will probably sign some time later this year with a Division I school, credits Teeters with much of her volleyball development.

"He's very knowledgeable and he knows the game," Young said. "And he doesn't yell. He's always very calm. As I prepare to go off to college, I'm looking for a coach a lot like Tom."

"I think it would be hard to get used to a new coach. I don't want a new coach. I want him back."

Malek said Wyatt is free to apply for the job, along with any other interested coach.

RAT POISON KILLS PETS

It seems as if a week doesn't go by without a phone call about a pet that has eaten rat poison. This is an emergency and requires immediate veterinary care.

Rodenticides or rat poisons work by inhibiting the synthesis of the body clotting factors. This results in the rat or mouse bleeding to death. There is a delay in this action as the body has a stored supply of these clotting factors. Dogs and cats that ingest these poisons must be treated immediately to prevent hemorrhage and death. Bird, cats, and other animals that eat mice will be affected by the poisons in the mice.

If you have a pest problem, keep foods and grains in airtight

containers and seal access points to the house. Before using baits and traps, consult with a pest management company.

At Small Animal Hospital, our primary concern is your pet's health. We offer boarding, house calls, and a 24 hour emergency service. For questions concerning your pet or to schedule an appointment, call our office.

Look for our next article in two weeks.
