### Proof That Mine Blew Up the Maine

THE Maine was destroyed by an extender of ternal explosion. Five no longer remains any doubt as to the manner in which the United States battleship was sunk in Havana harbor on February 15, 1983. The doubt bottom of the ship has been released with part of the keel standing perpendicular, some 28 feel higher han it never the standard perpendicular, some 28 feel higher han it never the standard state. From this position, in the control of the ship has been released with part of the keel standing perpendicular, some 28 feel higher han it has been allowed to agittle to the main some 28 feel higher han it has been allowed to agittle to the main some and the proposition of the ship stands in the standard state. From this position, in the control of the ship stands in the standard state of the ship stands in a perpendicular position, supported by stands in the standard state in the standard state. From this position, in the superstruction that such a sta

of the bottom, experts declare, indicates that what is now the highest point originally and structurally occupied a position at about frame 18. This suggests that there was an explosion of a mine under that part of the stip, say about unidway between the stem and the gridship section.

The explosion, experts believe, broke and the stem and the gridship section. The explosion, the revision of a mine under that part is throwing one attention that the stem is the property of the stem of the stem, the consing tower, toward the stem, the consing tower, toward the stem, the consing tower falling on the superstructure on the starboard side. From this position, in cutting away the wreckage, it has been allowed to sqittle to the main deck slightly forward of the after turier, which is on the port side. Thus the tower is on the opposite side to that on which the explosion cook place.

It is a confirmed bettef that such a

Taught-Sunday School Class 53 Years. At the annual raily day exercises at the First Baptist church recently it developed that one member of the school has been in charge of a single department for 63 years. That member is Mrs. A. P. Wheeler, superintendent of the primary department. When the announcement was made the superintendent of the school asked everybody in the audience who had at one time been a member of Mrs. Wheeler's class to rise, and practically the entire audience was on its feet in a moment, and they ranged all the way from gray haired men and women to little tots barely able to walk.—Atlanta Constitution. ### TOWN IS BEING REBUILT Flood of Waters Has Not Taken Black River Falls, Wis., From the Map.

River Falls, Wis., From the Map.

More than a million dollars absolutely disappearing in the short time of two hours was the toil collected by the waters at Black River Falls, Wisconsin. Even the residents of the town could not realize what it insear until the lake formed by the Hadfield dam was at the could be the Hadfield dam was at the the Hadfield dam was at the could be the Hadfield dam was at the the Hadfield dam was at the the Hadfield dam was at the hadfield dam was at the hadfield dam was at the hadfield dam the husiness men and residents of the place watched the waters carry away the buildings that represented the homes of business enterprises which it had taken years of effort to build. Among the larger industries seemingly wiped out within a few minutes was the plant of Coles Carbolialave. This plant, along with others that suffered a like fate, is today being rebuilt, and the business men of Black River Falls promise that a betteg town shall replace the one destroyed by the raging floods, and that just as rapidly as men and material can put it together. It is catastrophies like the breaking of the Hatfield dam that demonstrate the American spirit.

The Mussel Industry.

The Mussel Industry.
The mussel industry, has assuiced large proportion on American waterways in preent years. In this part of the country the mussel first came into general notice through the operations of pearl fishermen in the small rivers. Occasionally the mussel has a valuable pearl hidden away in his shell-incrusted interior, and in some streams pearl hunting is remunerative. At present, however, the bivaire is in demand because of the fact that the shells are largely used in the manu-The Mussel Industry. shells are largely used in the facture of buttons.—Milwaukee tinel.

"Sir." said the haughty American to his adhesity tailor." Toblect to this boorish dunuing. I would have you know that my great-great-grandfather was one of the early settlers. "And yet," sighted the nanious trademant "there are people who believe in heredity."—Argonaut.

#### Cement Talk No. 10

Concrete work stands the weather. No rotting, shrinking, warping, no crumbling nor rusting can occur where good sand, gravel or crushed stone have been mixed properly with UNIVERSAL Portland Cement and cast into sidewalks, floors, steps, foundations or other concrete work. Our best customers are our old customers who know by experience that concrete made from UNIVERSAL cement is good for years of use. Ask your dealer for UNIVERSAL when you have any concrete work to do.
