## Comfort, Convenience and Cleanliness

Assured by the use of BISSSELL'S new "Cyclo" BALL BEARING Carpet Sweeper. You can double its benefits by having two sweepers, one for upstairs, and one for downstairs, this saves the work of carrying the sweeper up and down stairs, besides you always have a sweeper at your command when you want it.

There is no article in the home as comfortable, or that saves as much labor and fatigue as a Bissell's "Cyclo" BALL BEARING Carpet Sweeper.

It operates easily, quickly and thoroughly, raises no dust, lifts up and prepares your carpet, and runs without longer than fifty feet in room. Look for the name Bissell's.

Price \$2.75 to \$5.00  
For any of these details, write to Bissell's, 150 West 42nd St., New York City.

## Malthoid Roofing

Is much cheaper than shingles—better than iron—more durable than tin—superior in every way to all other brands of roofing. Why?

Because it is the original roofing made in the best equipped factory in the world—made by men who have been making and studying roofing for twenty-six years—The Paraffine Paint Co. of San Francisco and Chicago.

Malthoid is made to give satisfaction—and does, no matter where it is used.

MRS. M. B. PIERCE, Sec.

That half mile of road on Grand River avenue next to the Detroit city limits is about the limit for human endurance. It is a polite invitation from Detroit to the farmers out this way to go elsewhere with their produce.

After miles and miles of good roads have been built leading to the city, it certainly is a disgrace to Detroit to foist such a piece of work on the people. They have taken the refuse of old worn-out asphalt pavements in the city and hauled it out on that piece of country road.

It is the claim of the city authorities, so we understand, that they cannot build that particular piece of road because only half of it is within the city limits. However, we believe with Neal of the Northville Record, that they have as much right to build a good road as to make a poor one worse. After riding for miles over good gravel and concrete roads it is a shame to be obliged to plow through a half mile of mire after reaching the city.
