## Excessive sugar intake worsens some conditions

A hh...sugar. We all love it, but it doesn't necessified as a rily love us back.

A how it, but it doesn't necessified as a rily love us back.

Believe it or not, the average intake of sugar in the American diet is 41 tons apoons daily Hard to fathon? Well, it's true. Sugar comes in many forms and it is a fine that we cat every doy.

Antie of me the more obvious places are get sugar in our diet, sugar is and intervent and beatiff. But you should eat more sugar to make up the difference, the opposition to be notified in boxed, camed and beatiff. But you should eat more sugar to make up the difference, the opposition in boxed, camed and beatiff and

## It's never too late to start sensible workout program

ustion: I'm a 61-year-old woman who would like to start working out regular-land was wears that it will keep me feeling younger and healther. I'm hoping that it isn't too land to start some kind of the cercriso program, although hereolium are a construction of the c

have nothing to lose!

Inswer: Provided you have newer: Provided you have newer: Provided you have have nothing to the first a cashible workout program. As a matter of fact, the list of benesits derived from exercising is growing all the time. Not only does it help to maintain normal weight, protect against dilobetes, increase the levels of HDL (the "good" cholesterol) and enhance the muselo strength and balance, exercise can also ward off depression and many the provided of the provided help and the

sive exercise program that includes both resistance training and scroble exercise.

So, let's take this one step at a time.

Resistance, or strength/weight training, strengthens ligaments, tendens and muscles and also promotes flexibility with the use control of the strength of the str

some quick tips to help you get started:

1. Wait at least two hours after enting, or the body may not be able to supply enough blood for digestion and muscle activity. You may end up suffering nausea, dizziness or cramps.

2. Walk, don't run, when beginning a workout program. Start with 15 minutes at least three times a week, building to every day if pessible. Begin with a five-minute warmup, a five-minute brisk walk and then a five-minute cool-down period. Each week you can increase your time until you're walking 30-

case.

In sure you're wondering how much and what types of exercise are the best for what might be considered an "older" person. As people age, most experts agree that people age, most experts agree agree that people age, most experts agree that people age, most experts agree agree that people age, most experts agree agree that people age, most experts agree agree
