DIPHTHERIA

HOUSEHOLDERS CAUTIONED
How to Avoid Diseases

Diphtheria is prevalent. The use of a reliable disinfectant protects the household. The last thing at night pour into the traps of the closets, wash basins, sinks, etc., just a little Platt's Chlorides.

Places where disease germs may develop, nooks behind plumbing, and all spots that can't be reached by the scrubbing brush should be freely sprinkled with a mixture of one (1) part of Platt's Chlorides and ten (10) parts of water.

Backache, Headache, Nervousness and rheumatism, both in men and women, mean kidney trouble. Do not allow it to progress beyond the reach of medicine, but stop it promptly with Foley's Kidney Pills.
