

FREE REMEDY HELPS CHILDREN

Many a mother has learned of a way of avoiding sickness in her family, especially among the children, by the use of a free sample bottle of the famous laxative, Dr. Caldwell's Syrup Pepsin. This offer of the doctor to the mother of a free sample bottle has been responded to by thousands of women in all parts of America.

Dr. Caldwell's Syrup Pepsin is a truly wonderful laxative and especially adapted to the needs of babies and children because it is pleasant to taste and no child will refuse to take it. It is mild and never gripes. It is all that a child's remedy should be, though it is a good laxative for the whole family because it is effective at all ages. It is not dynamic like salts, pills and powerful cathartics, which should not be given to children under any circumstances.

One time out of ten when a child complains, you don't know exactly what is the matter with it. It needs a laxative—its bowels are constipated. Syrup Pepsin will correct the trouble, tone up the child and soon it will be well again—wonderful results have been secured with Syrup Pepsin over night.

You can buy it of any druggist at fifty cents or a dollar a bottle, the latter being the family size, but you are invited to make a test of it first at the doctor's expense. Send him your address today and he will send you a free sample bottle direct to your home. Then when satisfied buy of your favorite druggist.

For the free sample address him: Dr. W. B. Caldwell, 402 Caldwell Building, Monticello, Ill.

Mrs. F. L. DeNio will be the leader for the affirmative, while Roy Tupper will be in charge of the negative side. All are to be given an opportunity to discuss the question.

The Explanation.
A man who had been brought up in a country village, but who had moved to the city, was visiting the scenes of his childhood. He happened to meet a boy who was considered to be a bit of the "old," and thought that there was a good chance to find out from him about the people he used to know. Among others, he happened to mention the name of an old schoolmate. "Why," said the boy, "he has been married seven years and has 12 children!" "Twelve children!" exclaimed the man. "How does that come?" "Oh," said the boy, "they had three to one, two to two, and one a good many times."

A Thought.
I remember a young wife who had to part with her husband for a time. She did not write a mournful poem; indeed, she was a silent person, and perhaps hardly said a word about it; but she quietly turned to a deep orange color with jaundice. A great many people in this world have but one form of rhetoric for their profoundest experience, namely, to waste away and die. When a man can read, his thought has slackened its hold.—Holmes.

DIPHTHERIA

HOUSEHOLDERS CAUTIONED

How to Avoid Diseases
Diphtheria is prevalent. The use of a reliable disinfectant protects the household. The last thing at night pour into the traps of the closets, wash basins, sinks, etc., just a little Platt's Chlorides. Places where disease germs may develop, nooks behind plumbing, and all spots that can't be reached by the scrubbing brush should be freely sprinkled with a mixture of one (1) part of Platt's Chlorides and ten (10) parts of water. This dilution costs less than 5 cents a quart. Do not forget a liberal sprinkling of the cellar. To remove objectionable odors where sprinkling is inadvisable, keep a cloth or sponge moistened with the dilution mentioned. A little extra care just now may prevent much sickness and expense. Platt's Chlorides is an odorless, colorless, liquid disinfectant which instantly destroys foul odors and disease-breeding matter. It is sold by druggists everywhere in full quart bottles and is prepared only by Henry B. Platt.
