Accordingly, free classes and seminars covering a variety of topics - from fly-tying to cooking wild game - will be regularly offered customers.

In fact, between 15 and 20 classes will be taught by in-store experts every month, said Sokolowski.

"A lot of people stop fishing because they don't catch any fish," he said. "But, if you teach people how to fish ... they'll get a passion for it."

Bass Pro Shops Outdoor World, like many other stores at Great Lakes Crossing, also plays its part as theme entertainer for shoppers.

Children and adults can test their shooting skills at an inter-

active, laser shooting arcade. The store's second floor hosts Uncle Buck's Snack Shop where shoppers can take pause and munch on hot dogs, nachos, sandwiches and other edibles.

Even coffee connoisseurs won't feel out of their element; the eatery's seating area looks like today's trendy coffee houses and brews espresso drinks.

Also on the second floor is a 107-foot-long pistol and rifle range equipped with motorized targets. Other demonstration areas include a 65-foot-long archery range, golf putting green and netted driving range.

While fishing gear and other outdoor sporting equipment, including boats and RVs, domi-

nate the store's merchandise, even shoppers who cringe at the thought of communing with nature will likely find an item or two of interest.

In addition to carrying full lines of equipment and clothing for fishing, camping, hunting, golf and boating, the store sells athletic shoes and casual sportswear for men, women and children, food items for the pantry, cookbooks and an array of home decor items - from a log bed to aromatic candles.

"We have a lot of people selling sports goods today," said Sokolowski. "We're about fishing, hunting, boating, camping, golf and a whole lot of other things."
