FASY To Use, No Controls To Adjust!

ish out the season for him. Paul agreed to do so, and as he was walking out the door, Mrs. Stewart yelled out to Paul, "Bowl a 300 game for him!"

The following night Koenig did that very thing.

In Stewart's 20 years of bowling he had not been able to do it, so they got a quick ring and put it in the casket with the score-sheet. The 300 game belonged to Bill. It was buried with him.

*Plymouth Bowl was always a tough house to score in, and in the last year of operation, it had not had any perfect games.

That was, until Harold McMahan, a senior bowler in his 60's, became the only one to do it before they closed their doors.

McMahan did not have one of those fancy high-tech balls, either. Rather it was an old discard, an LT-48 someone had left on the rack which Harold had "adopted."

Clarkston is where Cherry Hill North is located, one of the nicest bowling facilities in Northern Oakland County.

The 300 game which was rolled by Dave Craft at this locale last winter was different from all others, for Craft is legally blind.

He has a spotter to tell him which pins are standing. But for

He has a spotter to tell him which pins are standing. But for that one game the spotter had nothing to do but watch in

The date was Tuesday, Jan.
27, 1998 and Dave Hannenberg of Canton had been bowling for

27, 1995 hist bore trained and the correct years.

As a Vice President of the Wayne Westland Men's Bowling Association and as a league secretary for years, Hannenberg had seen plenty of others get their rewards for 'perfectos.'

But only some 299s were in store for him until that Tuesday at Super Bowl when he finally had his wish come true.

Mort Friedman of West Bloomfield began his night at the Senior Clussic League in Sterling Lanes with a 300 game. That set the tone for the rest of the night as he followed with 257 and 297, a whopping 854 series,

nt the nge of 61, the highest series ever recorded in the nation by a senior lengue bowler.

*No talk of 300s can be complete without the mention of the legendary Joe Norris. He will be making his annual visit to Detroit from his San Diego home to compele at age 90 in the Old Timers Tournament next month at Thunderbowl.

Norris bowled his first 300 at the age of 18, which at the time was the youngest ever. He did it again a few years ago to become the oldest ever to roll a perfect game. Norris is the Cal Ripken and the Mark McGwire of bowling, having set all-time records for over 70 years.

*This game was not a 300, but for an 8-year old, 200 is really something special. It was Andy Jones of Livonia in the youth league, while his mom, Pam was in her Merri Bowl Ladies league a few lanes away and only had a 196 game.

Andy has now moved up to the Sunday Youth Classic. Mom Pam just rolled her first 300 game in the Cloverlanes All-Star Bowlerettes a fow weeks ago.

*The best news event was when the bowlers all got together to have a revolt against the Liquer Control Commission and get new legislation passed in Lansing to allow low-stakes gaming in the bowling scene.

It was the L.C.C. which had cracked down on mystery games and Rep. Deborah Whyman of Canton co-sponsored House Bill 6114, which proved the Democratic process really works when people show their support.

*And the first side thousands of dollars for the Karmanos Cancer Institute with his two 24-hour bowling non-stop marathons.

marathons.
This year he was a bit wiser,

changing the format to a regular bowl-a-thon.

The stories never stop coming.

There is new excitement all the time, and you can expect to read all about it right here.

during delivery.
Q: Which are the most popular?
A: The "Robby's" supports are my best sellers. The hold the wrist in a strong position and are comfortable; to wear, I also recommend Cobra products.

streng position and are comfortable-to wear. I also recommend Cobra products. Q: Why Cobra? Basic models, A: They have three basic models, the stem "Scorpin," perty much basic, the cogile is more advanced with more support and the "Cobra", which has an extended finger support for more contrain and hit. These are metal broces which hold extremely firm, can really power up the game for some holders. They are also adjustable far wrist positions.
Q: Some types are gloves, how do they work?
A: The Gloves are there for a different feel, some, life the ebonder offer a certain amount of "Tackiness" to the feel of the ball, they have a support bone built in in back of the glove.
Q: What of there's do you recommend?
A: I like the new one from Makma Onthopecies colled The Beat One. It is light in weight, but has plenty of wrist support with very little difference on the feel of the ball.
Q: What do you advise the readers of

feel of the ball.

9: What do you advise the readers of Ten Pin Alley in general?

At Whist devices are not for every-body. Some bowlers say they lose the receivable to ball, or it alters their release too much. You will definitely get the ball to hook more with one, if that is what you want, There are a whole lot more devices out there, and it is worth trying one out to see if it helps you bowl state.

tying one out to see it it neigh you toolbettet.
