CVS gives schools grants

CVS pharmacy has selected Harrison, Farmington and North Farmington High Schools as the recipients of a \$75,000 grant as part of the CVS Innovations Grants Program. These schools were chosen from 64 proposals submitted. The CVS Innovations Grants Program seeks to help public schools create new and more effective educational models, enabling all students to develop the skills needed for success. In addition, to the three years of grant support, each CVS Innovations Grant recipient school participates in CVS/pharmacy-sponsored national networking and training activities and receives on-site technical assistance from program consultants.

DIABETES CAN AFFECT MORE THAN BLOOD SUGAR

Being short-sighted about diabetes can have lasting effects. Left untreated, it can cause kidney, nerve, heart and blood vessel disease. Not to mention taking away all or part of your life. If you experience blurred vision, fatigue, frequent urination, extreme hunger, thirst or weight loss, see a doctor as soon as possible. When treated properly, the complications caused by diabetes can be delayed or even totally prevented. So, if you're experiencing symptoms, the answer is in plain sight: get checked for diabetes right away. To find a U of M physician near you, call 1-800-214-4441. We accept a variety of health plans including MCARE.
