# "Appreciate Your Mother R seems that a person can more fully appreciate their mother not they become a parent. At this point, they gain firsthand experience of what their mother did for them while they were growing up. A startly mother is truly a blessing to her family, and the moral and ethical standards that since reflects to her clinder will be carried that since reflects to her clinder will be carried with them as betton's life more stan having children, and becoming a mother can be the most shallenging, set rewarding children, and becoming a mother can be the regionsibility a woman will ever have. Since children tend to storeotype things, they may believe that all muthers are the same, however, each mother is unique and special in her own loving have, The Bible tells us that we should never forget what tells us that we should never forget what tells us that we should never forget what their words always locked in our hearts. Their tells when we trule, protect us at rights and advise us during the day. Their loving correction can teach us how to live.

My son, keep your father's commandment, and forsake not your mother's teaching.

R.S.V. Proverbe 6:20

~ A
