## BUICK

Model 29, with Top, Glass Front and Prest-O-Lite tank, \$1250

Every Buick Car develops horse power far in excess of its rating. The roughest going presents no difficulties to the Buick, for the Buick Motor is a veritable giant in action, fully sustained by the utmost stability of every part—transmission, frame, body, steering gear, axles, shaft, differentials, brakes, springs, wheels—everything down to bolts, nuts, and cap screws.

All this enables the Buick to take "low gear" hills on high gear speed, "picking up" at every yard without the shift of a lever.

In addition to all this, the Buick Motor has been so refined that all Buick models for 1912 stand in the front rank with the most silent-running cars. As every car-wise man is familiar with the unequalled racing record of the Buick, it is not necessary to mention speed.

6 Models, at prices fixed according to power and size. \$850, \$1000, 1075, 1250, 1800. One-ton Buick Truck \$1000

## FARMINGTON WINS GAME FROM HOLLY 2nd. CLASS SCOUT

Take the Game in Spite of the Raw Work of the Referee.

Our First basket ball team closed their season in style Tuesday evening when they went to Holly and handed the Diamond H. team of that place the first beating they have been forced to take on their home floor.

Our team took the floor in a tired condition, owing to the fact that Howard and Harley Warner and Edgar Pierce missed the Grand Trunk train at Pontiac in the afternoon and had to cross over to Northville to get the Pere Marquette. They didn't get to Holly until 8:10 and had just time to get into their suits before the game.

Holly has always had the reputation of giving the visiting team a raw deal, having misused our high school on several occasions, and Tuesday was no exception. They were out to win at any cost, and if roughness and partial refereeing had been all that was necessary they would have won easily. But on boys fought back and after Johnny Clark had opened the throttle with a peach of a basket the home boys put on high speed and played Holly off their feet.

The only reason the game was close was because the Holly referee wouldn't call fouls on the home team, consequently our boys lost 5 or 10 points in this way. Our boys all played the game of their lives and all got a share of the points.

### Cemetery Association Meeting

The annual meeting of the Farmington Cemetery Improvement Association for the purpose of electing officers, will be held at the home of Mr. and Mrs. M. R. Wilber April 9th.

This meeting will take the form of a social. An extensive musical program is being prepared and refreshments will be served. No charges to be made. All members and friends of the association are urged to attend.

### Methodist Services Next Sunday

M. E. services March 31: 10:30. Preaching service. Sermon topic, "Whoever will be chief among you, let him be your servant."

11:30. Sunday-school. Lesson, "The Quarterly Review." Everybody welcome.

7:15 p. m. Epworth League. S. D. Harger has this service and it is sure to be bright and interesting.

7:30 p. m. Sermon topic, "It is appointed unto man once to die, but after that the judgment."

### QUICK ACTION

"How are you makin' out?" asked one Pullman porter.

"Well, I used to think I was doing pretty good," replied the other. "But after seein' a train held up by a road-agent the other day I feel like throwin' this old whiskbroom away and gettin' a revolver."

Some of the Things He Must Learn to do well

As formerly stated there are three main ranks of Boy Scouts. The first rank is that of the Tenderfoot—the subjects for examination for admission to this rank were given last week. The 2nd rank is called "2nd Class Scout."

The requirements for a "2nd Class Scout" are as follows:

1. At least a one month's service as a Tenderfoot.
2. Elementary first aid for shock, fractures, bruises, sprains, calds; demonstrate how to carry injured, and the use of the triangular and roller bandages and tourniquet.

3. Elementary signalling—know the Semaphore, or American Morse, or Myer alphabet.
4. Track half a mile in twenty-five minutes; or if in town describe satisfactorily the contents of one window out of four observed for one minute each.

5. Go a mile in 12 minutes at Scout pace—50 steps running and 50 steps walking, alternately.
6. Use properly knife or hatchet.

7. Prove ability to build fire in the open using not more than two matches.
8. Cook a quarter of a pound of meat and two potatoes in the open without ordinary kitchen cooking utensils.

9. Earn and deposit at least one dollar in a public bank.
10. Know the sixteen principal points of the compass.

The Lecture of Prof. Huss  
Prof. Huss' lecture on "Luther Burbank" given last Friday evening in the M. E. church was most certainly well learned. It doubtless was the best of its kind available. It is said that Prof. Huss has done more than any other living American to make botany an exact science. However, Prof. Huss' accent and his exceeding great learning made his lecture almost intelligible to most people.

His place is in the university laboratory, not on the public platform. But we are glad we met him. He is as humble and kindly as he is great.

### Dr. Price will be Here

Dr. Price, chief milk inspector of the city health board, will deliver a talk on "The Care of Milk and his letter of December 20th in the News," at the combined Horticultural and Dairy meeting to be held in the Farmington town hall April 6. Everybody come. You can hear something that will do you some good, as Dr. Price is a very able man.

### Get One and be a "Fan"

The Detroit United Lines, through Publicity Agent A. D. B. VanZandt, has issued the 1912 edition of its copyrighted baseball calendar, showing when and where the Detroit "Tigers" play.

As long as the supply lasts these calendars may be had from the station agents of the company, or they will be mailed by Mr. VanZandt from 12 Woodward avenue, Detroit, on receipt of two cents postage.

### Advice From Kindly Busy Body

"Oh, my! Your house has an odor or burning milk. Don't you know how to avoid that?" asked the K. B. B.

"I didn't think it was so terrible. I'm sure. Everybody has accidents of that kind," said the woman she was visiting rather irritably.

"Now it's all right, of course, I don't mind it, my dear, but next time just sprinkle some salt on the stove at once after the milk is spilled and you will avoid that unpleasant odor."

### THE LITTLE ONE BLOUSE

Now that the season is near at hand for the boys to need a new waist we recommend the "LITTLE ONE" blouse.

They fit nicely and save the bother and worry of making. Try one.

## THE SUCKER LIST

When the postoffice authorities "pulled" the Standard Securities Company, alias Wisner & Company, in New York the other day, they took away with them a wagon load of nicely engraved oil and mining company certificates and "literature" telling how to make a budding dollar blossom into many thousands.

Among the papers gathered up by the inspectors was a list of over 100,000 names of people who have bought, or might be induced to buy stocks. The inspectors call it the most valuable "sucker list" in existence. Many of the names were followed by remarks showing that the persons named had a reputation for being quick to grasp the kind of opportunity which A. L. Wisner & Co. and the Standard Security Co. advertised.

The startling fact is that these people actually sold more than two million dollars' worth of this worthless stock to the public.

It would be an insult even to presume that your name is on the "sucker list," but are you sure your money is so carefully husbanded and invested as to be immune from the lure of the financial "prospects" in oil, in mines, in real estate developments, whose assets are the beautifully engraved certificate? Have you considered the ABSOLUTE SECURITY that a strong bank like the

offers you? Have you put in the balance against prospects the CERTAINTY of the return of the principal and interest on demand? Don't get on the sucker list.
