DIABETES CAN AFFECT MORE THAN BLOOD SUGAR
Being short-sighted about diabetes can have lasting effects. Left untreated, it can cause kidney, nerve, heart and blood vessel disease. Not to mention taking away all or part of your sight. If you experience blurred vision, fatigue, frequent urination, extreme hunger, thirst or weight loss, see a doctor as soon as possible. When treated promptly, the complications caused by diabetes can be delayed or even totally prevented. So, if you're experiencing symptoms, the answer is in plain sight: get checked for diabetes right away. To find a U of M physician near you, call 1-800-211-8181. We accept a variety of health plans including **MCARE**.
