Good Bread

is not always made from good flour. Sometimes, quite often, in fact, the fault is with the cook. But while poor bread is often made of good flour, good bread is never made of poor flour. The best cook in the land cannot do it. She must have the right flour and we recommend and warrant our **PEERLESS** brand for either Bread or Pastry. Spend your money for a home product. It will pay.

Gildemeister Flour Mills

THE FIRST COMMERCIAL BANK of Pontiac

gives careful attention to all business committed to its charge and pays four per cent on deposits.

COMMENCEMENT WEEK IS OVER

The Long Looked-for Vacation
Period is Here and the
Young Folks are
Happy Again

Commencement week is over once again. School is closed—the longed for day for many has come and gone. It did seem, altogether likely, to the pupils, that they, the halcyon days of summer holidays, would never come, but here they are at last.

Now that they are here it would be well to make the most of them. "Work while you work and play while you play" is really a good motto even if it is homely and old-fashioned. The scholar who mopes around, not knowing what to do with his time these days will never be ready for school work again next fall. Keep out of doors and keep busy. The best "rest" is always to find a "change" from school work. Planting potatoes would be a change anyway, and at that it would be better than just moping around with nothing to do. To be idle is to be unhappy, and to be unhappy long means to become unfit for life or work. Keep cheery, fully busy, boys and girls, and these will surely be the best holidays you've ever known.

But we started to write about commencement week. We've all kept cheerfully busy last week. We're getting to be quite chuffed with all our "doings." Class picnic on Monday, Junior reception on Tuesday, graduating exercises on Wednesday, eighth grade promotion exercises on Thursday, commencement exercises Friday—a full week surely. Everything went off splendidly, anyway. It was a week long to be remembered by the scholars, their teachers and the parents. The music was very good indeed. All the exercises were well presented.

Hon. Henry R. Pattengill's address Friday evening was one long to be remembered by those who heard it. "The Yankee's Creed," as he presented it, was a most inspiring one.

Farewell Party to Miss Newberg

A very delightful farewell party was given in honor of Miss Newberg at the home of Mr. and Mrs. Day Dickerson last Monday evening. Over 60 people, nearly all younger folk, gathered to "speed the parting guest." A pleasant hour was spent in games on the lawn, after which partners were chosen by a unique method. Proverbs, printed on a card, then cut in two, one piece handed to a gentleman, the other to a lady, each to find a mate, till the proverbs were made whole again. Having found each a mate all were escorted to the dining room where dainty refreshments of ice cream, with strawberries, and cake, were served.

Miss Newberg has been our assistant high school teacher for two years and has won a host of friends in the community. We shall miss her bright smile and cheery way very much. We know, however, that our loss will surely be "someone's" gain. It is not known exactly what Miss Newberg intends doing another year, but rumors are very numerous these days.

The Skerritt-Lyon Granite Co., of Plymouth and Pontiac, who carry an advertisement in this paper, have been installing many beautiful monuments in the cemeteries throughout this part of the country. Just recently they have done some work for the Fred Simmons and Mrs. Wm. Simmons families at Novi.

ANALYSIS OF THE CITY WATER

Report of State Bacteriologist
Shows that We Have an Ex-
cellent Quality of Fine
Drinking Water.

The following letter from the state board of health is in reply to one from Dr. Miller, asking for an analysis of a sample of water taken from the new wells that were driven for the water system.

Lansing, June 11, 1912
Mr. F. A. Miller,
Farmington, Michigan.

Dear Sir:
The sample of water received from you June 5th has been examined with the following results:

Color	None
Odor	None
Turbidity	None
Sediment	Trace
Parts per 1,000,000	
N. as Free Amm.	.020
N. as Alb. Amm.	.040
N. as Nitrates	.000
N. as Nitrites	.000
Chlorine	24.000
Oxygen consumed	1.300
Alkalinity	290.000
Hardness	300.000
Ignited solids	290.000
Iron	1.200

The findings in this sample of water do not indicate the presence of any dangerous contamination and it is safe to assume that this is a good drinking water.

Respectfully yours,
M. L. HOLM, M. D.,
Bacteriologist.

Millford People are Wide Awake

The enterprising portion of Millford's population is doing just what this town ought to do. They have formed a club to boost their town, both socially and commercially.

The ball started Tuesday night with a big banquet of men and their ladies. They now propose to get busy and do something for the old town. In August a two-day carnival and home-coming is to be a feature of the new order of things. Officers, including a "publicity man," have been elected and the slogan adopted is "The Sun never Shines on a Better Town than Millford."

Auburn Gardens No. 2

P. H. Ritchey is advertising his new subdivision, Auburn Gardens No. 2 at Pontiac in this paper. Auburn Gardens No. 1 went off with a rush and No. 2 will very likely do the same as he has made the prices very low. The low prices include all improvements, such as: sewers, sidewalks, graded streets, shade trees, etc., and this is an excellent opportunity for investment in his proposition.

To Chicago by Auto

S. D. Harger and party left for an auto tour to Chicago last Tuesday morning. They expect to be three days on the road, making first stop at Grand Rapids. It will be a delightful trip across the state just at this time of the year when nature is at her best for "it is June the month of roses." They expect to be in Chicago about three weeks and then will motor back again.

Presented With an Umbrella

Supintendent Goodrich was presented with a beautiful, gold-handled, silk umbrella, appropriately engraved, by the senior class at the close of school last week.

With his family Mr. Goodrich moved to Byron this week where he will have charge of the schools of that village. Their departure is regretted by a large number of friends.

Queen Quality
SHOE

"Queen Quality"—just like other shoes?
Not at all! Got that made-to-order look. That glove fit—that exclusive style. Others don't compare with them

FRED L. COOK & CO.

Bottled Sunshine

This isn't a sermonette, but a story; a story that will earn social ostracism for you if told in South Jersey.

Down at Bridgeton the business men got all het-up over the prospects of locating the manufacturing plant of the "Sun Electric Generator Company," and they invested \$35,000 in the stock of as rank a swindle as ever emanated from "Get-Rich-Quick Wallingford."

It was the simplest thing ever. Just put a storage battery on the roof and let the sun rays generate electricity to light the house at night. The bottlers of sunshine are now in jail, but it developed that not a savings bank depositor had bought sunshine stock. Their money is still working for them in some strong bank like the

Farmington Exchange Bank (A STATE BANK)

Better bottle your greed for impossible interest and generate energy in our savings department.
