Help restore native plants in the area

The Michigan Chapter of The Nature Conservancy has set out guidelines to prevent the introduction or spread of invasive alien plants (those not native to the area) into our natural areas, and to help restore our native GARDEN store our natural areas, including clearing of native vegetation, plants from the plants of the plants and dumping of yard wastes.

| Avoid disturbance to natural areas, including clearing of native vegetation, planting of non-native plants and dumping of yard wastes.

| Don't buy or leaf year of ye

It do by the same state, if you don't know it, don't grow it.

Control exotic invasive plants in your landscape either by removing them entirely or by managing them to prevent their spread outside your

them entirely or by managing them to prevent their spread outside your property. This may include pruning to prevent flowering and seed dispersal or cutting, mowing or herbicide uses to prevent vegetative spread.

■ Discuss your concerns about invasive exotic plants with nurseries and garden shops and ask them not to sell these species. Provide them with printed material (such as this) explaining the problem to read later. Ask for non-invading alternatives instead.

■ Notify land managers of invasive exotic plant occurrences.

■ Offer to assist in exotic plant removal projects.

Work with your local government to encourage the use of native plants in urban and suburban landscapes. Provide lists of attractive, non-invasive, locally native alternatives that are naturally more hardy and pest-resistant and provide more nutritious food for wildlife than cultivated plants. Here are some culprits:
■ Perennials

Sulfur Cinquefoll, Potentilla recta, looks like a hairy marijuana plant

Here are some culprils:

Forennials
Suffur Cinquefoll, Potentilla recta, looks like a hairy marijuana plant before flowering. Leaves have toothed edges, pale-yellow flowers at top of stalks; very competitive in native grasslands. Light encourages growth.

Baby's-Breath, Gypaophila paniculata, tiny white flowers in the summer, delicate-looking small, graygreen leaves. Is invading the habitat of dune thistle, Cirisium pitcheri.

Vinca, Periwinkle, Myrtle, Vinca minon, V. major, trailing groundcovers, overgreen leaves, small, blue flowers often summer and fall. Various cultivars have a wide range of colors and leaf variegation.

V. major has larger blooms and leaves with rounded bases and leaves with rounded bases and lapered tips. Can persist in original sites for decades, crowding out all native herbaceous vegetation.

Garden party

Gardening is family tradition for Hills woman

ardening is a family tradition at the home of Farmington Hills resident Kitty Gitulli, who says she derives much of the inspiration for her sprawling courtry gardens and elaborate Koi-filled pond from her German mother and 94-year-old Polish aunt.

Gitulli,

who has been gardening for 30 years, continues to make her inherited passion for the outdoors a family affair.

She now employs the help of her husband Paul and 16-year-old son Dante to help make the help make the help maintain the lush landscape that is one of six garden

that is one of this frog have ma six garden sites to be featured in the Farmington Garden Walk on Saturday, June 22.

"I couldn't do this without my family, said Gitulli, gesturing to the colorful flower beds, unusual hanging plants and finely trimmed shrubs that accent the front of her home.

"That's why I don't work – this house is a job."

The Gitulli gardens feature a variety of flowering delights, from large

The Littuit gardens feature o vari-city of flowering delights, from large purple rhododendrons and robust hostas, to elegant Boston ferns and sweet-smelling mountoin laurel.

Many of the plants and flowers have special meaning to Gitulli because they have either been given to her by friends and family or she

has raised them herself from seeds.
Gitulli said that the dramatic peonies blossoming by the front porch "mean a lot to me" because they are from the original slip her aunt gave her many years ago.

Water wonderland
