Just because something is old doesn't mean it isn't valuable.

I can relate to that. Maybe that's why I'm never in a rush with these guys. Sanding out a dent here and there, restoring the gears... soon I'll have all the time in the world for them, just like they have for me. That's the beauty of retirement. And now that it's almost here, I'm grateful that I started planning early — with U.S. Savings bonds. I started buying Savings Bonds when I got my first real job, through a Payroll Savings plan. I put aside something every payday. And little by little, it really added up. Bonds are guaranteed safe, too, and earn interest up to 30 years.

In a few more years, you'll find me out here in the workshop more and more, fixing a hinge or polishing a case. I know that there's a lot of life left in these old guys. I can relate to that.
