Farmington's Martin Wilson puts a hit on Henry Ford quarterback Steve Merriwether with support from Courtland Bartlett and Danny Preston (13). The Falcons won the district coursament playoff game, 21-14.

Falcons rally to win playoff opener

It's often said football is a game of emo-tion and momentum, and the Farmington High team proved that Friday night. The Falcons (9-1) had both working in their favor in the second half as they ral-liced to defeat visiting Detroit Henry Ford in a Division II playoff game, 21-14. After struggling offensively in the first half, Farmington scored three second-half

touchdowns and won the game with Brad Walsh's 9-yard TD reception with 22 seconds remaining.

'In proud of the character of our players, and the execution in the second half, Farmington got a needed lift when Sherman Taylor caught a 27-yard pass from Matt Corrigan for a first down at the Rechest said.

Beethet said.

The first think we could play football. We're a good football team, and Ford is a perennial top team in the FSI.

We knew we could pull it off, and we

Polar Bears post victory over Trojans

BY BRAD EMONS STAFF WRITER

What ailed Livonia Clarenceville

What ailed Livonia Clarenceville during the regular season carried over into the postseason Friday night against Highland Park.
Two costly turnovers, untimely penalties and inability to capitalize in the red zone all added up to a 14-8 loss for last year's Division V runnerup against the visiting Folar Bears in a first-round district matchup.

FOOTBALL

Clarenceville ends the season at 8-2 overall, while Highland Park, also 8-2, advances into the District 2 champiadvances into the District 2 champi-onship game against Erie-Mason. Ironically, it was the Polar Bears' first football playoff win in school his-

*Penalties, mistakes and turnovers all year, we never learned, said Clarenceville coach Greg Hudkins. 'We had hoped to turn the page tonight. Three times we were inside the red zone and didn't score. There

are no excuses."

It was a defensive battle for the

most part.
Charenceville had the edge in total
yards, 185-161, and in first downs, 9-7.
The Trojans' defense also did their
part, holding speedy senior tailback
Michael Dunwoody to just 16 yards in

Michael Dunwoody to just 16 yards in 11 carries.

But 5-foot-11, 220-pound senior fullback Dennis Stepter picked up the slack with 128 yards in 20 carries.

On Highland Parks first series, Stepter scored on a 20-yard run with 5-18 left in the opening quarter. The two-point try was stopped, leaving the score at 6-0.

"We figured they'd take away the

Raiders follow Stockton's lead to win over Falcons

Senior guard Christy Stockton turned in a superb performance Wednesday, leading the North Farmington girls basketball team to a 93-29 win over host Farmington. Stockton scored a game-high 22 points, which included making 12 of 16 free throws, and she also had five rebounds and five

steals.

Becca Weiss chipped in nine points and
Brittany Pajewski five for the Raiders (4-13).
Pajewski had seven rebounds and Kristin
McErlean five.

The score was tied, 9-9, after one quarter,
but North outscored Farmington in the sec-

KASY BATDORSS I DRSCRYER

Aaron Scheidles of Farmington cools down after finishing a local duathlon in August. He will compete Nov. 9 in the ITU Triathlon World Championships in Mexico.

Seminar looks at recruiting

Like everything else, this must be learned. Jack Renkens ins taken it upon himself to teach the course, one that all sorts of aspiring high school athletes would be interested in. His "Recruiting Realities" program visits the Northville High School anditorium at 7 p.m. Monday, and it's free of charge. Renken's goods are simple: to teach prepathletes who may be good enough and are interested in playing their sport in college how the recruiting process works. "It's a combination of things, Renkens said. You have to be realistic about the opportunities that are out there to get your education, and here's what you need to do. Renkens tours the country giving his presentations. There is always an interest, since there are always athletes getting recruited. The one-hour presentation addresses the who, what, where, when, why and how of

college recruiting, addressing the myths attached to the process.

"The upper one percent of the athletes in the country will get scholarships," he noted. "A school will recruit a hundred athletes when they only have five or six scholarships. "When you don't hear from them by a certain date, you've got to get real." What Renkens tells some athletes who believe they are NCAA Division I-caliber may not be what they want, or expect, to hear.
"It opens up their eyes," said Renkens, whose background includes 20 years of coaching, teaching and administrating at the high school, junior college and college level. Renkens has coached state championship-level basketball teams and served as an NCAA congressman.
"I say, 'Here are your options, here are your choices," Renkens explained. "Do you PLEME HE SEMIMAR, CS

Scheidies' goal to win world triathlon crown

BY DAN O'MEARA

Anron Scheidies of Farmington likes an athletic challenge.
That's why he took up the sport of triathlon and is going to Mexico next week with the hope of winning a world championship.
Scheidies was a cross country runner and swimmer at Farmington High School; so he was experienced in two disciplines and added bicycling to his regimen.
The 21-year-old junior at Michigan State University did his first triathlon four years ago in Gaylord, and he finished 14th out of 100 contestants
"I just like to challenge myself, and I thought it would be the ultimate

challenge to do a triathlon," he said.
"I did one and got hooked."
Competing in a grueling sport like triathlon is half the story in Scheidies' case. He's also legally blind; his vision is 20/400.
At the International Triathlon.
Union World Championships Nov. 9 in Cancun, Scheidies will compete in the physically-challenged division, but that will be something new for him. Previously, he has nearly always competed against regular competition and athletes with no disabilities.
"I'm probably at a disadvantage because, subconsciously, I'm thinking I have to take it a little cautiously on the bike, because I don't see every-
