# offers open caption films

Emagine Entertainment,

Emagine Entertainment, Inc. has begun showing open captioned films for the hearing impaired at its Novi theater. Open captioning is enhanced English subtitles that are 98 percent verhatim with audio prompts for slamming doors, doorbells and off screen dialogue (radio broadcast). Unlike subtitles in foreign films, open captions are placed directly beneath the person speaking on screen. Open captioned films ensure movie patrons of a complete onscreen experience. An open captioned film is so flexible that it can play on every screen in any theatre. All sound is intact on the original film so the movie can be enjoyed by those with a hearing impairment or the general public. Here's a schedule of open captioned films at Emagine Novi, located in the Fountain Walk shopping center, located between I2 Mile and I1-96, just
