Frustrated Contractor is "Giving Away" \$1,700 Furnaces for \$341 with Off-Season Central Air...

(This is great financial news if your furnace is over 8 years old)

Yes, it's absolutely true. You can actually replace your old (and probably very inefficient) furnace and air conditioner as a package for at least \$1,400 less than you would have to pay at any other time. Let me explain. Every year, the months of January, February and March can "kill" my business. I end up losing a ton of money during these "killer" months and it can take me the remaining nine months to make up for them. And I'm looking for the same thing to happen this year.

My problem is Your Opportunity

I've decided to give up trying to make a profit during the "killer" months. If I can only minimize my losses during January, February and March, I will come ahead to the other nine months. Here's how this (admittedly daring) offer came about. Every year, the big manufacturers of air conditioners have to guess how many to build to meet the demand. Of course, they're never exactly right. So, they always have some inventory they must hold over until the next summer season. I went to one of these companies (I'llig name) and contracted for the purchase of 24 air conditioners and furnaces in the four most popular sizes. And, because of the quantity and time of year, I was able to buy them at drastically reduced, dirt cheap, out-of-season prices. They are brand new 2002 models. And they are NOT the seconds or "blems" or standard "builder" models. They are factory-fresh air conditioners and furnaces and have a full factory warranty.

Here's How You Can Get A Furnace For Pennies

By putting this furnace and air conditioner package together (then "downloading" the factory) and committing to a 60-day purchase agreement of 24 systems, I was able to buy both the furnace and the air conditioner for less than anyone should have a right to pay. So, if you buy one of these normal 24 new, air conditioners (buy only if one of the four sizes I have will

fit your house, of course), I am "giving" you the furnace and all I ask for is the \$341 in labor it costs to have your furnace installed.

Here's How

Just call me at (248) 449-8487 anytime. I will come out and measure your home (and determine the availability of the proper size). Don't forget, I only have 24 matched systems in four sizes. When they are gone, this remarkable offer ends also. I will show you the real world price for the air conditioner that fits your home. Then, I will show you the substantial savings now. And it will include all labor and installation materials. Nothing is left out.

The Concept Is Simple Really

By letting you win big now, I will win at the end of the year. I'm betting that if I make you an offer that is "irresistible" (at least it should be if your furnace or air conditioner is over 8 years old) and I barely mark it up above the price I paid, I will accomplish two things:

- I will cover any rent, utilities, insurance and taxes in the "killer" months.
- I can pay my professional staff of technicians to work instead of paying them to sit at home.

If I can accomplish these two objectives, I will minimize my losses and the rest of the year, I can be a winner.

No Obligation

Even after I completely explain the installation, there is absolutely no obligation. If you decide you don't want to take advantage of the spectacular savings... that's okay. I will give you a surprise gift worth \$69 because you are kind enough to give me a chance to solve my problem. I want you to think well of 72 Degrees even if you don't buy.

You Can Buy With NO Cash

You don't even have to pay me right away. I have set up a terrific bank rate financing plan.

I even decided not to mark up the interest rate like some companies do. Consider this. If you decide to make monthly investments instead of paying cash the entire amount of your payments might be more than offset by the savings on your utility bills. It's like "having your cake and eating it too."

Ironclad Guarantee

I'm so confident that you will save at least 25% on your cooling and heating bills (I'm projecting more like 30% to 60%), that I will pay you Double The Difference for two years if you don't! I'll show you exactly how this works. There is no way you can lose. Your lower utility bills will help you save big. And I will even double your savings if you save less than 25%. If these systems were not among the best on the market, I couldn't afford to make such a promise.

Why This Offer Can't Last

You must act before March 15th. Here are two reasons why.

- I can only have 6 of each of the four sizes. When all of the air conditioners are sold and all the furnaces are "given away" in a particular size, that's it. There are no more at this price.
- If I have any of the 24 systems left on March 15 (although I doubt I will), this offer still ends.

Here's why. The only reason I am making this virtually no profit (for me) offer is because of the "killer" months. My business always starts to improve in April and because the furnaces cost me so little, I can sell them at 2002 prices next November and December and still come out ahead. Give me a call now at (248) 449-8487 and I will set an appointment for your no-obligation survey.
