How to Start a Fortune

Here are the secrets of accumulating millions, told by millionaires. Is Andrew Carnegie's advice worth taking? Well, it made a good many millions of dollars for him. The late Marshall Field tells how he rose to be the merchant prince of America. Henry Claws tells the secret of his rise from book-keeper to Wall Street magnate; to wit—

Do not spend more than three-quarters of your income for living. Be careful of your store debts. Have a bank account in the

Farmington Exchange Bank (A STATE BANK)

Fred M. Warner, Pres. Sam'l D. Holcomb, Vice Pres.
M. Byron Pierce Harry N. McCracken
C. W. Wilber, Cashier.

BUSINESS EDUCATION

Gradually the authorities in our educational matters are coming to appreciate the value of a thorough business education. It is now seen that a knowledge of business methods and customs is of more practical value to the average young person than a full course in the dead languages or even higher mathematics. The graduates of the well known Detroit Business University, which for more than 60 years has been giving a splendid training for business pursuits have been active in advancing the claims of business education and of this particular school. This has much to do with the fact that this institution is everywhere regarded as the pioneer and the par excellence today among business training schools.

HOME MAKING

The first step in buying or building a home is the Savings Account.

Everybody should have a home of his own.

A savings account with this bank, with regular deposits from the income, will provide the money for the first payment upon one.

The sooner you begin, the sooner you will live in your own home.

AMOS OTIS

THEY CLAMORED FOR REVENGE

ROCHESTER WAS NOT SATISFIED AFTER FIRST DEFEAT

Came Over Loaded for Bear but Were Trimmed Very Neatly and Went Home Very Much Disheartened

Since our ball boys went over to Rochester several weeks ago and trimmed the team at that place, they have been clamoring for revenge. Last Thursday they were given the opportunity, but once more the "well laid plans of men" went wrong and the callers were forced to take the small end of a 4 to 3 count. Rochester came over here loaded for bear, with Hadley an Evansville Central league player at shortstop, and Midge Craven, outfielder at Grand Rapids in the same league, not to mention a Detroit semi-professional and the best talent available from their own town. As the score indicates the game was fast and bitterly fought throughout and most exciting from a spectators standpoint.

The home boys fought an uphill battle as Rochester scored their three runs in the first inning when Johnson, being frustrated by a fussy umpire, who called a balk on him unnecessarily, went availing. Before his toe weights were readjusted the three afore mentioned counters had clattered over the pan, putting the Rochester contingent in a happy frame of mind and the locals in a correspondingly gloomy one.

Our boys were not to be denied, however, and got one back in the last half of the dismal first. After two had died Pierce slammed one. Bliss' slants to center for a brace of sacks, and scored when Maas dubbed one through the shortstop's fingers.

Rochester could do nothing with J. Hattie when he once got settled, whenever they did hit him it was after two were run down. Farmington scored three in the 4th and went ahead when Wilber scored. Hutchins and Warner on a slam past third, and tallied a moment later himself when Johnson hit through the box.

From then on there was no more scoring, although Farmington earned a run in the 6th. Webster walked and stole second; Harley Warner smashed the ball to center for two bases, but it went for naught, as Webster neglected the formality of touching third in his rapid flight homeward and was called out for his carelessness.

In the 9th Rochester gave the fans heart failure and made a desperate bid for the game. The first man up died easily and the game looked safe. Hadley, who had proved troublesome throughout got a base on balls at this time. The batter following then twisted a skyscraper in front of the plate which somehow eluded the grasp of Maas' big mitt. Things looked pretty dark for a minute, but brightened immediately when Pierce pulled down Patterson's long drive to center and Wilber camped under Taylor's pop-up.

Howard Warner's play around third base and Pierce's plucking of a long drive off the clover tops in the center were the bright fielding features. Hutchins also pulled off some nifty fielding in the short field. A couple of his pegs to first being as pretty as have ever been shown on the home lot.

Henry Van Uum, the Wixom merchant was fined \$200 and given a jail sentence of 30 days. This is the first straight jail sentence given for liquor violation.

"LET WELL ENOUGH ALONE"

NAME OF CLUBS BEING FORMED IN OAKLAND COUNTY

Members Contend that Present Conditions Should be Continued in this Country

Throughout Oakland county "Let Well Enough Alone" clubs are being organized. It is the contention of those who join the clubs that the present conditions should be continued. They point to the fact that times never were so good as at the present time and that the people were never so prosperous. That the system of protection now in vogue gives the farmers the best markets they ever had and the laborers the highest wages ever known. For this reason they believe that the voters should and will let well enough alone.

The Crisis

Did you ever have a crisis in your life?

Were you ever face to face with danger. And have you not at some time felt the necessity for wise and prompt decision?

A serious crisis now exists in the life of a nation.

Over a land which has developed tremendously under the sunshine of good government and prosperity a shadow hangs today. It is the shadow of Democratic administration.

And as Democracy in 1903 meant business depression, ruination of confidence and credit, millions of idle working men and low prices for the products of the farmer, so Democracy in 1913 would mean a repetition of those distressing times.

Not only is prosperity menaced but constitutional government—our wise, stable and successful system of popular representation—is threatened by radical, fantastic and untried theories advanced by demagogues.

Is not this a crisis in our history?

Why allow the Republican party with its splendid record of progressive laws and substantial achievement, to be defeated in order to gratify selfish revenge and disappointed ambition?

Why allow the Republican party which has developed the material industries of the country under the protective system, to be succeeded by a party which has a record of disaster under free trade policies?

It is a crisis for the farmer, who does not want hard times to come again; for the workman who does not want to ask for bread; for the business man who suffers in a period of commercial stagnation.

You can avert the crisis.

Can you hesitate as to your decision?

Why change?

The first meeting of the Ladies' Aid for the new year will be held at the home of the new president, Mrs. Henry Pauline, Friday, Sept. 27. All members are earnestly requested to be present.

New Officers of the Ladies Aid

The annual meeting of the Ladies' Aid for the election of officers was held at the home of Mrs. E. C. Grace Thursday, Sept. 12, when the following officers were elected:

Pres.—Mrs. Henry Pauline
Vice Pres.—Mrs. E. C. Grace
Sec'y.—Miss McKenzie
Treas.—Mrs. M. Truscott

The ladies of the society served lunch and each lady presented Mrs. Gullen some token of their love for her as their pastor's wife

A number from Farmington attended a political meeting at Pontiac last Monday night.

Costs You Nothing When Idle— Almost Nothing When It Runs

WHEN an IHC engine is at work, it is the cheapest dependable power you can use; when not working it costs you nothing. It will work just as hard at the close of the day as at the start—it will work overtime of all night just as readily. It is ready to work whenever you need it; always reliable and satisfactory. You can use an

IHC Oil and Gas Engine

to pump water, to run the wood saw, cream separator, churn, grindstone, washing machine, food grinder, corn husker and shredder, engine cutter, or any other farm machine to which power can be applied.

IHC oil and gas engines are constructed of the best materials; built by men who know what a good engine must do; thoroughly tested before leaving the factory.

They are made in all sizes from 1 to 50-horse power; in all styles—vertical and horizontal, air and water cooled, portable, stationary and mounted on skids, to operate on gas, gasoline, naphtha, kerosene, distillate or alcohol. Kerosene-gasoline tractors, 12 to 45-horse power.

Ask the IHC local dealer to show you an IHC engine and explain each part, or write for catalogue and full information.
