DID THEY CALL ON YOU? us affably and stuck out his the willy take money from the gullible, nat many surphss the will have been worked diligently in farmington of late.

Undoubtedly you are familiar with the "racket." If you aren't, it's a mystery how they missed you, because, you see, they offer operfunity to only their "free" opportunity to only "the five very most prominent residents of the town."

For the benefit of those who have been recently engaged you, because, you see, they offer gone, we would gladly have skicked him through it. We are not one of "the five most prominent families in own. We work hard for our money. And we don't want something for nothing.

For the benefit of those who have been recently engaged you.

residents of the town. And every five people they see are "the five most prominent."

For the benefit of those who happen, quite fortunately, to have been "out" when the gentlemen called, it might be well to explain the scheme. Two or more glib, high-pressure "take" is used advisedly. They approach residents, husinessmen, asybody who might have money. They tell you that they are from some association in another State, which has "been engaged by" some "institute" with a similar high-sounding name, (the name is all there is to it), to "put out! a standard work upon "the present knowledge of the world." etc. Of course it was found that the work when completed, was so marvelous that the public just must be given an opportunity to share the golden treasure. Therefore more, on many more than the original number of copies will be printed, due to overwhelming demand from all parts of the world," all parts of the world,"

And we hope, for your sake, you told him the same, gently but firmly.

As we did.

ONE THING THEY WON'T DO

ONE THING THEY WON'T DO One more reason for being happy in Farmington—
Our new City Commission, when it convense next Monday night, is not very likely to spend the next ten days deciding exactly what position at the dinner-table should be reserved for the wildowed vice-president's sister, who has the social misfortune, lit would seem, to possess a his band.
Our Commissioners are-merely

band.
Our Commissioners are merely citizens chosen to do the people's work—not small politicians appointed to big jobs, and this made "statesmen."

the public just must be given an opportunity to share the golden treasure. Therefore more, on many more than the more many more many more than the everyone in on it. Instead of paying big sums for expensive advertising space in newspapers and magazines, "we're kepting and magazines W. Green are between the words, in history for the enactment of the Espie Bill, which outlaws the promiseuous sale and shooting of fireworks in the State of Michigan.

The remarkable thing is not the overwhelming approval of the bill by legislatory and its signing by the Governor. The wonder his at that this State for many years permitted the repetition of firework months, and that other the velve months, and that other states will allow it.

One day recently, about noon, we stopped into a store on Grand River. The proprietor and a customer were talking about swindles. We started to describe this one. "Why that fellow just went out the door," exclaimed proprietor.

We walked across the street and down the block. In another said down the block in another store we came upon that interchant, Knowing the session might last fain hour, we came back to our office.

A short, dapper man greeted state our own system. Nothing else is either wise or safe.—Editor and Pub-likers.

Speaking of Strikes
