Rescued from embarrassment

Guests arriving unexpectedly just before dinner need not cause you embarrassment. There may not be enough ice cream and cake to go around, but you can call the corner grocer and order more, unknown to your guests. You can do it, that is, if you have an extension telephone—in the kitchen, for example. Then you cannot be heard in other parts of the house.

An extension telephone costs only a few cents a day

Plan Demonstration Of Electric Cooking

A demonstration of electric cooking, the most elaborate ever prepared in this section, is to be held next Monday and Tuesday afternoons, June 10 and 11, at the Farmington office of the Detroit Edison Company. The Farmington demonstrations are part of a series of similar events planned for towns throughout this portion of the State.

Miss Simpson, of Ann Arbor, will come to Farmington to demonstrate for housewives the best methods of preparing food. The cooking will be done at the Edison office, on an electric range connected for the purpose. Comfortable seating arrangements will be provided, to give every visitor a good opportunity to follow the methods shown.

At the demonstrations, three attendance prizes will be given each afternoon, an electric toaster, an electric iron, and an electric percolator.

All women of this community are welcome to attend the demonstrations, which will start at 2 o'clock each afternoon.

NEW CURRENCY IS PUT ON DISPLAY IN FARMINGTON

Smaller Size Bills Soon To Be Put in Circulation By Government

The United States government is planning to replace all of the paper money now in circulation with new and smaller currency and to this end, the government printing presses are running day and night. The government will print about \$2,600,000,000 in the new paper currency, equal to \$26 for every man, woman and child in the United States.

A few of the new bills have just been received from the U. S. Treasury by the Farmington State Savings Bank and are now on display at that bank. The new money will not be placed in general circulation until some time in July.

The plan is to put the new money into circulation all over the nation at the same time and it is expected that two carloads of the new currency will arrive in Chicago during the first week in July, to replace the paper money now held in the banks of that city. A total of \$50,000,000 will be required for this purpose.

All \$1 bills will have a picture of Washington.

All \$2 bills a picture of Jefferson.

All \$5 bills a picture of Lincoln.

All \$10 bills a picture of Hamilton.

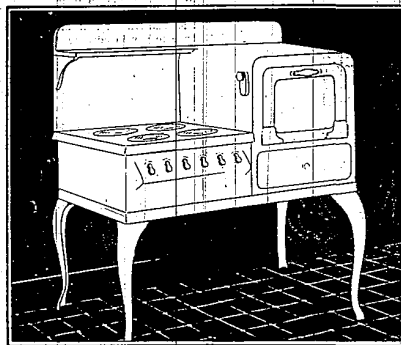

All \$20 bills a picture of Jackson.

All \$50 bills a picture of Grant.

All \$100 bills a picture of Franklin.

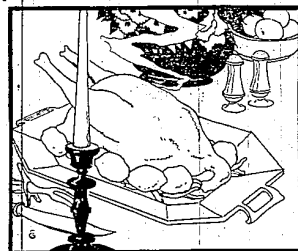

Come and sample for yourself this superior electric cooking

At The Farmington Office Of The Detroit Edison Company
Monday, June 10th at 2:30 p. m.
Tuesday, June 11th at 2:30 p. m.

This is a Personal Invitation —

to you to come and bring as large a party of your friends as you wish. No reservations necessary. You will find this Electric Cooking demonstration both instructive and interesting. The Attendance Prize is a very useful electric household appliance.

TASTIER

Food Tastes Better with Electric Cooking

because there is no smoke or fumes to taint the food, and because the natural flavor of the juices is sealed in. All of the natural elements are retained. This makes electric cookery more healthful.

Moreover, the various cooking controls take the guesswork out of cooking. You can be confident that even cheaper cuts of meat will cook tender and savory. An electric range is unsurpassed for consistent and superior cooking.
