POISON SAID TO BE RARE

The widely heralded organism which causes botulism poisoning is much more rare in canned fruits and vegetables than the publicity given such cases of poisoning would indicate, according to nutrition specialists at Michigan State College.

Progressive citizenship is found neither in the ranks of the hopelessly poor nor of the idle rich.

Phone 9 Farmington

STRANDED

yet he kept both engagements

While upstate on business, recently, an automobile official missed his train connections and was stranded for the night. Two important appointments loomed ahead—in Lansing and in Detroit.

In that emergency, he turned to the telephone. The two cities were called and his business completed so satisfactorily that it was unnecessary to visit either place.

The telephone always is ready to serve you, either in emergency or in the regular conduct of business.
