M. E. CHURCH AT WALLED LAKE BEING REMODELED

Work has started on the installation of a heating plant and building of class rooms in the basement of the Methodist Church, Walled Lake, by the members. This week members of the church tore out the old furnace and all the flooring and a cement floor was laid on Friday. The plans made contemplate the use of sliding doors to make class rooms for use of the Sunday School. This will also give ample dining room space.

The steam plant will be installed at the back of the basement with a kitchen alongside of it, thus leaving practically all the basement for use of class rooms and dining room.

Because she was given publicity as an actress to \$70,000,000, Miss Laura Harding quit her job as actress in a Chicago theatre.

"If I cannot have publicity on my ability as an actress, I want none as a rich man's daughter," she said.

The Thrift Hour

The hour when a little time spent in reading the advertisements in this newspaper can be made to play a big part in the status of the family savings account. Consistent ad reading gives you first hand information TODAY about the quality and price of the purchases you intend making TOMORROW.

There is a general tendency among most housewives at present to operate their homes on the popular budget plan. At the first of every year a certain amount of money is allotted for each expense connected with the running of the home. In order for this plan to work effectively, great care should be taken by the housewife in making her purchases. Using care does not necessarily mean buying articles on the price appeal alone as other merits enter into the purchase of an article, such as quality and style and usefulness.

The merchants of this community place their various offers before you each week in order that you may know in advance, what the market affords. These advance suggestions, when acted upon, enable the buyer to make the most of every dollar spent. You too, will find that reading the ads will make an astonishing difference in your daily expenses. An hour spent in ad reading is truly—"The Thrift Hour."

DELAYS

HAVE DANGEROUS ENDS.

Philosophers may count you concerning the dangers which beset modern life. You see these dangers in the experiences of others. Fire is one of the greatest! Why delay having your insurance reviewed and adjusted to your present needs? Delays are dangerous and expensive!
