RUSSIA'S FIVE DAY WEEK
In Russia all religious holidays, including Sunday, have been abolished. Workers have a rest every fifth day. A continuous 24-hour working day has been established with successive relays of workers every 8 hours. This insures an endless chain of labor. The object is to speed up production and abolish unemployment; the only holidays permitted are the anniversary of the October revolution, the anniversary of Lenin's death and Labor Day. Labor the world over will view this experiment with deep interest, while the wisecracker will wonder when Russia is going to have her accidents "if there ain't going to be no Sunday."—Exchange.

why smokers graduate to

CAMELS

The phrase "I've graduated to Camels" originated with a Camel smoker. It expresses the experience of millions who through Camels have learned to know real smoking pleasure.

As taste in smoking develops, it naturally leads toward better quality. New smokers may not be critical but when they once experience the true mildness and surpassing fragrance of the Camel blend, they realize that here is a real superiority. It is for smokers of such discernment that Camels are made . . . for them the choicest tobaccos are selected . . . and this quality is maintained for the millions who know genuine smoking pleasure.

when they learn the difference they flock to **Camels**
