# But - Why Electric Cooking?

**1 CLEAN**—Electric heat is as clean as sunlight. Glowing, hot as fire, it has none of the objections of fire: no smoke or soot to deposit and accumulate, soiling your kitchen walls and curtains. ELECTROCHEF, new electric kitchen-range, is clean and easily cleaned—hundreds of women are enthusiastic about this feature.

**2 TASTY**—Electric cooking is superior to all other cooking methods for delicious flavor. The natural juices of meats and vegetables are sealed in. Once you have tasted ELECTROCHEF-cooked foods, you will never again agree to cook with fuels.

**3 ECONOMIC**—Cooking with ELECTROCHEF costs about one dollar per month per person—seldom more, frequent-

ly less. Ordinary care in the control of heat may greatly lower this cost. Using radiant focused heat, ELECTROCHEF is economical.

**4 CONSISTENT**—Accurate oven control makes baking easy. ELECTROCHEF's light, fine-grained cake and flaky pastry will delight you.

**5 COOL**—Electric cooking means a cool kitchen—a point which wins women's lasting gratitude, particularly in summer. With double air-space insulation, ELECTROCHEF is cool. Radiant focused heat from four "Fire Bowls" on the cooking table makes cooking with ELECTROCHEF extremely fast. The oven comes up to 400 degrees in less than six minutes. Snap the switch and start to cook.
