The new two-plane cylinder head, designed exclusively for the V-type engine of the Oakland Eight, is proving one of the most successful motor designs of the current year. To this radical smoothness with which the Oakland Eight develops 85 horsepower from an engine of only 251 cubic inches displacement.

201 cubic inches displacement.

Instead of forming a flat corring over the engine cylinders, the two-plane head is shaped like a broad wedge with the face forming an angle of 135 degrees.

Year of the displacement in the Republic of the oldest men in the Republic of the oldest

As Clean as Sunlight

Electric Heat for Cooking!

As pure as the food it cooks, electric heat comes to your kitchen as clean as sunlight . . . Glowing, hot as fire, with none of the objections of fire, it is the ideal heat—refined and delivered! All of the smoke and soot, are removed in the power house. There is no dirt to deposit and \ accumulate on your kitchen walls and curtains. Prove this yourself. Once you have cooked with electric-

ity you will never again agree to cook with fuels. * * * Electric cooking with ELECTROCHEF costs about one dollar per month per personseldom more, frequently less. Ordinary care in the control of heat may

greatly lower this cost. Radiant focused heat makes cooking fast (snap the switch and start to cook!) an accurate oven control makes consistent baking surprisingly easy. The tempting, delicious flavor of meats and vegetables—cooked with their juices sealed in-and the light, fine-grained cakes and pastries will delight you. You will treasure your ELECTROCHEF * * *

ELECTROCHEF, with its modern lines, is a handsome addition to any kitchen and can be kept immaculately clean in every part as easily as a china disha point which has proven a continual delight to women.
