"BITTER SWEET" COMING TO THE SHUBERT APR. 7

The appearance of Evelyn Laye in "Bitter Sweet" at the Shubert Detroit Opera House on Monday April 7th, marks one of the most important events of the theatrical season. Evelyn Laye is the greatest prima donna in the world. She was the toast of the town in London, and since her arrival in America has been called "The American Patti." A proof of her greatness and the delights of "Bitter Sweet" is indicated by the fact that three of the most famous producers in the world have combined to present this Noel Coward opera to the American public.

Charles B. Cochran, who presented "Bitter Sweet" in London, is known there as the Ziegfeld of the English stage. He it was who arranged for the original settings, costumes and elaborate investiture of "Bitter Sweet." Arch Selwyn is famous for the English productions he has brought to America: "Charlotte's Revue" and "This Year of Grace."

Florenz Ziegfeld, of course, is the best known theatrical magnate in the world. His glorification of the American girl, his stage hits "Show Boat" and "Whoopee," his long series of "The Follies" proves that he knows more about what the public wants than anyone else. Up to now he has glorified the American girl, but in bringing Evelyn Laye and an English company of Enterprise FOUR 125 to the American stage, he has glorified the English and created for the American public "An Evening of Enchantment."

Noel Coward is the author-composer-lyricist of "Bitter Sweet," his newest opera. Mr. Coward is already known to the American public through "The Vortex," "Charlotte's Revue" and "This Year of Grace."

In addition to Miss Laye, the cast includes Gerald Nodin, Mirville, and a large company of extraordinary singers, dancers and musicians. The settings were designed by Professor Ernest Stern former collaborator with Max Reinhardt on the scenery of "The Miracle" and the costumes are authentic reproductions of those of the 70's, 80's and 90's. The story is that of a woman's life and love, and Vienna, land of nocturnal enchantment, serves as the background.

Modern knights of industry have devices—the advertised trade-marks of their products. They must safeguard the reputation of these trade-marks to keep them worth while.

Advertising throws a powerful light on a trade-mark. If it proves worthy, it gains popularity and confidence. If it is shown to be unworthy, it quickly fails.

So you can be sure that every consistently advertised product is good. The advertising test has proved it. The name of its maker stands behind it. The trade-mark is your warranty of satisfaction and true quality.
