"COURTESY CARDS" MAKE ANNUAL BOW—LEARN NOW

Have you received a "courtesy card" apparently entitling you and your family to buy jewelry "at wholesale"? "Courtesy Cards" and "wholesale privileges," so-called, usually make their appearance just before the Christmas holidays. "Wholesale" means selling in bulk. "Retail" means selling individual items. The Bureau knows of no way that enables a concern to do a retail business without assuming the cost of retailing.

Many of the "wholesalers" issuing "courtesy cards" are merely holiday retailers dressed up in a plausible "wholesale" garb. The "courtesy cards" are merely part of the bait. These operators are, of course, not in business for their health, and the public must pay them a profit in order to make the game worth while. If you receive a "courtesy card"—

Before You Invest—Investigate. Better Business Bureau.

WOMAN PINNED UNDER AUTO STEERING WHEEL

Pinned beneath the steering wheel and car door, Mrs. F. J. Schmidt of the village of Walled Lake was held "prisoner" for short time Tuesday evening when her car skidded on the corner in front of the Glen Buffmyer home. Mrs. Schmidt was not seriously injured nor was her niece, Miss Lorraine Harder, who was with her. The car was slightly damaged and one wheel broken. She was driving toward Walled Lake and the car skidded as she turned the corner, rolling over on the side and throwing Mrs. Schmidt beneath the steering wheel in such a manner that she was unable to get out until the car was lifted. Mrs. Louis Engel and grandson were at the corner as the accident occurred and went for aid.

THE DANGER IN YOUR GARAGE

We read frequently in press dispatches of some one meeting death from carbon monoxide gas from the exhaust of his automobile, usually in a closed garage. Warnings concerning this danger have been issued by the Public Health Service. Especially in the colder sections of the country are these accidents likely to happen, where drivers sometimes let the engine run for a time to warm up, before driving out of the garage.

The smallest engine will give off enough carbon monoxide gas in two or three minutes to make the air of an ordinary garage dangerous, while the larger engines will naturally contaminate the air in less time.

This gas is almost odorless and by a peculiar effect on the red corpuscles of the blood it causes death by paralysis of the respiratory organs. While the victim loses consciousness gradually, he may be paralyzed to such an extent that he is unable to escape by the time he becomes aware of his danger.

The only safe plan is to avoid running an automobile engine at all in any place not well ventilated.—Exchange.

TELEPHONE DIRECTORIES
Three and one-half million telephone directories are published annually by the Bell Telephone Company of Pennsylvania, comprising a total of thirty different directories. The largest directory is for Philadelphia and the next largest is for Pittsburgh. The Philadelphia directory is now published in two volumes.

The City of Youngstown, Ohio, shows a gain of 34 per cent in Long Distance calls over last year as against an average increase of 20 per cent throughout the state.

A total of 13,000 surgeons are listed in New York City's classified telephone directory.
