**WINTER SOWING REPORT**  
A decrease of five per cent in the acreage of winter wheat and an increase of ten per cent in the rye acreage shown this fall in Michigan are announced in the Winter Wheat and Rye Report issued from the office of the Michigan Co-operative Crop Reporting Service. Seeding was delayed by the drought which prevailed until early October. As a result much ground which normally would have been sown to wheat was seeded to rye or left unseeded.

**CLARENCEVILLE**
