Grant Power and sons Robert and Cecil were callers at the N. H. Power residence Tuesday.

Edward Baker and family left Thursday for Texas, where they will spend about 60 days.

Rev. Elmer W. Palmer was a

New Bodies For Ford Cars Displayed Here

(Continued from page one)

Brightness comes from the finish strip at the juncture of the hood and fender.

"Shielding treatment is new and the fenders are of more generous dimensions, flowing with the lines of the car.

Fenders Are Fuller

"The fenders, much fuller than heretofore, contribute a great deal to the improved appearance of the car. Higher at the front, with high crown and sweeping well down over the wheels, the new front fenders flow back in graceful curves to the running boards. The rear fenders, which also have high crowns, sweep down over the rear wheels to a point lower than formerly.

"The head lamps, set higher on a new arched tie rod also contribute to better appearance. "A new atmosphere of stability is produced by the smaller steel spoke wheels and large tires, which bring the bodies closer to the ground, resulting in a lower center of gravity and consequently increased safety on the road, especially in rounding turns, at high speed. Riding quality also is improved.

"The most notable changes in the body types have been made in the Tudor sedan, the Coupes and the open cars."

Club Will Meet At Mrs. Whipple's Home

Mrs. Nina Whipple will be hostess to the Farmington Woman's Club at the next regular meeting on January 8th. The great religious drama, "The Passion Play," given every ten years at Oehrammargau is to be described and illustrated by Mrs. Charles Pettibone who attended the last Passion Play in 1922.

Since the play is to be given again in 1930, a review of this important sacred play, depicting the sacrifice on Calvary is regarded as both purposeful and timely.

Mrs. Charles Pettibone, Corresponding Sec.
