FARMINGTON ACRES

Mrs. H. A. McIntyre

Mrs. Charles Willard of Detroit and Mrs. Albert Koss and daughter, Shirley of "Base Line road", called on the former's parents, Mr. and Mrs. Charles Damon at "Reshaven".

Mrs. Minor of Farmington, called on the Misses Markham Thursday afternoon.

Miss Mary Bravender spent Thursday afternoon with Mrs. H. A. McIntyre.

Mr. and Mrs. George Taylor were Saturday evening guests of Mrs. Taylor's sister and brother-in-law, Mr. and Mrs. Maurice Seebaldt.

Miss Goldie Gooden and niece, Mable Wiggle spent the week-end with the former's sister, Mrs. Straubel.

Edward Messell was the week-end guest of relatives in Detroit, attending a party at the home of Miss Alice Bentley Saturday evening.

Mr. and Mrs. Joseph Kingsley and children of Detroit were Sunday dinner guests of Mr. and Mrs. B. G. McIntyre, later visiting Mr. and Mrs. H. A. McIntyre and Miss Victoria Markham.

Mr. and Mrs. Silas Galnor entertained several relatives at a bon-voyage gathering Sunday, honoring the latter's brother, Glen Cotterell who is to leave for California where he is to make his home. Those enjoying the day together were the father, Mr. Cotterell and son, Nelson and family of Flint, son William of Detroit and mother, Mrs. John Hill of Detroit. Later they spent the evening with Oswald Cotterell and family of Dearborn.

Mr. and Mrs. Julius Pultier of River Rouge and brother August of Detroit, with Miss Emily McConehie of Redford were Sunday guests at the Markham home.

Mr. and Mrs. Arthur Koss of Detroit entertained the former's brother and sister-in-law, Mr. and Mrs. Albert Koss, also sister and brother-in-law, Mr. and Mrs. McKinney and their children at a family gathering Sunday.

Ruth Davis and friend were Sunday guests of the former's parents, Mr. and Mrs. Charles Damon.

Mrs. Frank Hofmann and Betty visited relatives in Detroit, Monday.

Mr. and Mrs. Henry Hill of Northville were callers of Mr. and Mrs. Maurice Seebaldt.

Mrs. Edward Schulze spent Tuesday with her mother, Mrs. Greive in Detroit.

Miss Mary Bravender is spending several days with her cousin, Miss Jennie McGregor of Detroit.

Mr. and Mrs. H. A. McIntyre attended the wedding of Miss Josephine Berner and John Garvey at St. Gabriel's Church in Detroit, Wednesday.

Mr. and Mrs. Alfred Ducharme were callers in Clarenceville, on Tuesday.

Mrs. John Hill of Detroit visited with her daughter, Mrs. Silas Galnor, Tuesday.

Addition of 30,000 acres in Michigan's State forests has brought the total acreage now included in the 12 forests of 493,295.

Facts About the Telephone

At the present time the Austrian telephone administration is engaged in extending the underground telephone cable between Vienna and Graz to the Jucos-Slavia frontier.

According to the Bureau of Engineering of the Department of the Navy, dial telephones will be installed on all new vessels of the Navy and where placements of existing telephone systems are necessary.

Telephone operators in Cairo, Egypt, must speak four languages and count in still others. In spite of the handicap, the Cairo exchange is one of the busiest in the world in number of calls handled per operator.

Telephone service over the new Italian underground cable linking Rome with Florence was successfully inaugurated on October 27. This is the second unit in the great Italian telephone network that eventually will connect Florence and Milan.

The shortest name in the Oakland, Cal., telephone directory is X and it is a bona fide name at that, for Mr. Stuart X actually does exist and lives in the city at 554 Santa Clara Street. X is his legal name, having been adopted for convenience.

On September 1, 1929, the total number of telephones in the Post Office system of Great Britain was 1,833,277, a net increase of 8,523 stations for the month of August. The total telephones in London on that date was 646,440, representing a net August increase of 2,780.

1930 CENSUS TO INCLUDE FIGURES ON DISTRIBUTION

Enumeration This Year May Indicate Ways Of Improvement

The coming census of the United States will be the most comprehensive statistical compilation ever undertaken in this or any other country. It will necessitate the employment of over 125,000 people to canvass the dwellings, farms, shops, factories, stores, and other establishments for which data must be obtained. It will cover population, agriculture, irrigation, drainage, manufacture, mines, unemployment and distribution.

The original purpose of the census when it was initiated 140 years ago was simply to ascertain the population of the several states as a basis for the apportionment of representatives; and the taking of a census decennially for this purpose is required by the Constitution of the United States.

Now, for the first time, we are to have a census of distribution, which may be defined briefly as a gathering of statistics in regard to wholesale and retail trade.

The need for the kind of information which may be obtained through a distribution census is very generally realized and has been urged upon the attention of the American people by the President of the United States, by the present Secretary of Commerce, by chambers of commerce, and business organizations, especially those concerned in trade and distribution. It is believed that one of the reasons why we have not made improvements in the efficiency of distribution correspond to those that have been made in production is that we have hitherto possessed relatively little comprehensive information about the movement of commodities.

FRUIT GROWERS AND BEE KEEPERS TO MEET

Fruit growers will hear some very interesting discussion of their combined and separate problems if they attend the meeting at the Walled Lake High School on Friday, February 21 from 10 a. m. to 4 p. m.

Subject: New light on some Orchard Management Problems. Specialists will be: Mr. H. D. Hootman, Pomologist; Mr. J. C. Kremer, Apiculturist.

The talks will be illustrated and interesting.

The meeting is for the fruit growers of the community and these two men are experts in this line and this will afford an opportunity for the people of the section to get some first hand information on their problems. It is hoped a large attendance will be had.

Arrangements have been made to serve a lunch to those wishing to come and stay all day.

ANNIVERSARY HONORED

Mr. and Mrs. Ottó Maas of Walled Lake celebrated their 25th wedding anniversary Sunday, February 9. The dinner was given by their three children: Mr. and Mrs. Elmer White of Farmington, Mr. and Mrs. Howard Miller of Northville and Mr. and Mrs. Conrad Piskorn of Dexter. The children presented them with a beautiful floor lamp.

BIRTHDAY OF H. S. EARLE

Horatio S. (By Gum) Earle is 75 years old today. Mr. Earle tells of his birth in this manner: "My father could not give my mother a Valentine so the Lord told his angels to go to the rock pile and pick out the homeliest cross-eyed baby they could find and take it down to Mrs. Earle on top of the Green Mountains in Vermont."

"I arrived on time at 5 o'clock in the morning, got there before the doctor and By Gum I been on time ever since."

HAS OPERATION

Joseph B. Moore, former Justice of the Michigan Supreme Court and native of Walled Lake underwent an operation at a Detroit hospital this week and is reported recovering very favorably.

Run Over; Unharmed

All that Joe Suchyta, 17, suffered as a result of being run over by a passenger train was getting his clothes dirty. He was walking on the Wabash railroad tracks in Detroit when a fast passenger ran over him. When the train had passed, Joe got up, brushed the dirters from his clothes, and went to the hospital for treatment for minor abrasions.

TUBERCULOSIS PREVENTION

At this time, when the Michigan Tuberculosis Association and its branch county societies are laying the groundwork plans for a pretentious educational campaign during April, third of a series of such drives, it is wise that we should pause a moment to determine the present status of the anti-tuberculosis crusade in Michigan. Taking inventory of work accomplished, we may determine points most in need of attention and then re-orient our future efforts with an eye toward paring down further and with the fewest possible waste motions the still excessively high tuberculosis death rate.

Let us list very briefly the principal points accomplished to date in building up in Michigan a defense against tuberculosis.

First and most important, are the free chest clinics and the sanatoria that have been established. Clinics now operate in every sector of the state, while the sanatoria provide beds for upwards of 5,000 patients.

Second and nearly as important, is the fairly general understanding of the fundamental facts about the adult type of pulmonary tuberculosis—its symptoms, its infectious nature, the importance of early discovery, and the value of prompt sanatorium treatment in achieving recovery.

Third comes the group of preventive aids set up to date—open window and open-air schools, education of children in their habits, correction of physical defects among children—all of which, while also a part of general public health work, are of infinite importance in tuberculosis control because of their instrumentality in raising up in children the wall of health that later will help them resist tuberculosis.

These three factors working together, and aided by higher living standards and a wider public appreciation of the value of hygiene and positive health measures, have accomplished the remarkable feat of reducing the number of tuberculosis deaths in Michigan to the present rate of 69 per hundred thousand population.—Michigan Tuberculosis Assn.

Tell your merchant you saw his advertisement in the Enterprise.

There are 244,703 farms in Ohio a greater number than is to be found in Minnesota, Iowa, North Dakota, South Dakota, Nebraska or Kansas. A greater number of farms than there are in all of the mountain states combined, and almost as many as the combined number in the Pacific Coast states, including California.

All these added improvements —yet prices greatly reduced!

The new Chevrolet Six is enjoying the greatest public reception ever given a Chevrolet car. For it offers scores of new improvements and refinements that make it a finer car in every way. Yet it sells at greatly reduced prices!

Consider a few of the extra-value features that Chevrolet has incorporated in this greatest of all Chevrolets — a smoother, flashier six-cylinder valve-in-head motor, with its capacity increased to 50 horsepower!

— a stronger, more durable rear axle, with increased gear ratio!

— four Lovejoy hydraulic shock absorbers—assuring a smooth, even, comfortable ride over any road!

— weather-proof internal-expanding four-wheel brakes, with front and rear drums tightly enclosed!

— larger full-balloon tires, a new clutch and a stronger transmission!

— quieter, stronger, more beautiful Fisher bodies—with richer upholstery, more distinctive colors, and wider, deeper seats!

Every factor has been considered that would add to the safety, comfort and convenience of the Chevrolet owner. Come in today. See this greatest of all Chevrolets! Check over its new features. Drive it. You'll find quality you never thought possible—at such greatly reduced prices!
