ELECTRIC COOKING

—as great an improvement as

ELECTRIC LIGHTING!

THE day of the kerosene lamp and gas mantle for home lighting has long passed. Electric lighting is now a convenience that no one would be without.

Electric cooking is as great an improvement as electric lighting: A million housewives in the United States are already enjoying its sheer cleanliness, its convenience, its coolness, and the delicious flavor it retains in foods.

ELECTROCHEF, a new and remarkable kitchen stove, meets the modern demand for SPEED—as fast as you want to cook, for ECONOMY—costing but a fraction more, with ordinary care in the control of heat, than cooking with the cheapest fuels. ELECTROCHEF'S performance is a revelation: It will broil a 1/4-inch steak perfectly in 12 minutes; the oven comes up to 400 degrees in less than six minutes. Cooking with ELECTROCHEF is cool, clean, pleasant.

Its COOLNESS is an advantage every woman appreciates, especially in summer. No longer is a hot, suffocating kitchen necessary. CLEANLINESS is a feature that delights all women: Electric heat is clean as sunlight, and the range itself is as easily cleaned as a piece of china. Finished in all-white porcelain and never-rust mirror-like Chromeplate, with smooth, gleaming surfaces and softly rounded corners, ELECTROCHEF is a handsome piece of kitchen furniture. You will be proud to show it to your friends!

It is EASY TO OWN
an ELECTROCHEF!

\$10

DOWN PAYMENT

puts an ELECTROCHEF in your kitchen—installed, ready to cook. This includes all necessary wiring. Balance \$6 per month. Cash price installed, \$105.

ELECTROCHEF'S light, fine-grained cakes and flaky pastries will delight you! An accurate oven-temperature control, from 250 to 600 degrees, makes consistent baking easy. ELECTROCHEF is cooking simplified—ELECTROCHEF is the inevitable cooking method. Snap the switch and start to cook! See this remarkable stove today at any Detroit Edison office.
